No assurance can be given regarding an active and/or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.</p>	
GENERAL RISKS	
<p>Investments in Equity and Equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of the Company and this Issue, including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Prospectus. Specific attention of the investors is invited to the section titled 'Risk Factors' beginning on page 19 of Draft Prospectus.</p>	
ISSUER'S ABSOLUTE RESPONSIBILITY	
<p>The Issuer, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Prospectus contains all information with regard to the Issuer and this Issue, which is material in the context of this Issue, that the information contained in this Draft Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission or inclusion of which makes this Draft Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading, in any material respect.</p>

PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Draft Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the section titled *‘Financial Statements as Restated’* beginning on page 183 this Draft Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Draft Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Draft Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled *‘Financial Statements as Restated’* beginning on page 183 of this Draft Prospectus.

CURRENCY OF PRESENTATION

In this Draft Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY & MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Draft Prospectus have been obtained from publically available Information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Draft Prospectus is reliable, it has not been independently verified by the Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section “*Risk Factors*” on page 19 of this Draft Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Draft Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the sectors / areas in which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 19 and 184 respectively of this Draft Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Draft Prospectus. Neither we, our Directors, Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act, 2013 and its applicable Companies Act Rules (as amended from time to time) and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 129, “Our Industry” beginning on page 113 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 184 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively; and*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Draft Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 3 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS:

BUSINESS SPECIFIC RISKS:

1. *We specialise in only 1 product type, i.e., Blue colour Dyes.*

Initially, Our Company was into manufacturing various colours of dyestuffs till year 2013. After getting permission for manufacturing of CPC Blue Crude dyestuff and witnessing the growing demand of our CPC Blue product, our Company decided to focus into business of manufacturing on one specific product type and specialise in it, consequently we started manufacturing Turquoise Blue reactive dyes only with their sub-variants. Although this has led to the growth of our business both in terms of operational and financial performance in recent years, however, our business model is restricted to a particular product type and limits the growth to an extent owing to our inability to meet the demand of customers having requirements of various colour dyes and pigments. Presence substantially in only 1 colour product makes our business comparatively small and prone to competition risks. However, we market other colour products like Black, Orange and Red also but those are based on specific orders received and we are not into full-time manufacturing of the same. Customers may not prefer us as their business partner if they have requirements of multiple colours as we are not in a position to supply them multi-colour options from under one roof. This may adversely affect our overall business.

2. *Our products use raw materials, prices of which have been very volatile in past.*

Manufacturing of Dyes requires numerous dye intermediates, such as, Vinyl Sulphur, Phosphorus Trichloride, Soda Ash. These intermediates forms substantial portion of our total production cost. Our cost of material consumed was approx. 51.41% of our Total Expense for the financial year ended 31st March, 2017. Although our Company produces one of the intermediates, but we procure majority of our raw materials requirements from third party suppliers. These chemicals are produced only by few companies such as Kutch Chemicals, Aksar Chem, Bodal Chemicals and Kiri Industries. We procure our major requirements from them and till now we have been able to procure it at the normal prevailing rates in market. However, there have been situations in past where prices of these intermediates have increased by multiple times causing us to pay abnormal cost for such intermediates adversely affecting our overall profitability thereby causing working capital crunch. As there are only few producers for these intermediates, we face a risk of substantial increase in prices by these producers. Occurrence of any such event in future may affect our business substantially both in terms of operations and financials.

3. *Presently our major focus of revenue is on the sale of Blue Dyestuffs and any decrease in the demand for them will adversely affect our business.*

Our Company has been focusing only on production of Blue dyestuffs. Our percentage revenue in F.Y. 2016-17 for Blue Dyestuffs was around 90% in F.Y. 2016-17. We being a specialised player in Blue Reactive Dyes, our focus has remained intact in this segment. Any decrease in demand or our inability to supply our product on timely basis it may adversely affect our operational and financial performance.

4. Intense competition from China may affect our business adversely.

Dye manufacturing business is carried majorly in India and China across the globe. Our company faces tough competition from players situated in China as they have a competitive advantage of manufacturing dyestuffs at lower cost. Since only 2 countries manufacture dyes, there is an intense competition between both the countries which are trying to increase their market share. There have been environmental restrictions on companies in China which has led to shut down of many dye manufacturers favouring other manufacturers, however, there is no assurance that such restrictions would kill the competition to our advantage and we will not face any threat from companies in China.

5. We depend on certain brand names and our corporate name and logo that we may not be able to protect and/or maintain. We have a logo which is used for our business purpose. Further the said logo is not applied for registration with the registrar of trademarks.

Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. Currently, we do not have registered trademarks for our corporate name and logo under the Trade Marks Act, 1999. Consequently, we do not enjoy the statutory protections accorded to registered trademarks in India for the corporate name and logo of our company. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate name or logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects.

Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects.

The material approvals, licences or permits required for our business include trade licence, excise and approvals related to tax laws and environment laws among others. See “Government and other Statutory Approvals” on page 209 of this Draft Prospectus for further details on the required material approvals for the operation of our business.

6. Our future growth is majorly dependent on the new manufacturing facility which we are setting up. Any delay in commissioning the new facility may hamper the business operations of our company.

We have been into the business of dyestuffs since 1993, with the experience we possess our company has built a large customer base. At present, our manufacturing facility is operating at more than 90% of its installed capacity providing us limited scope to grow within the facility. To capitalize on this fact, we are setting up a new manufacturing facility spread over an area of 75,060 sq. meters with an annual production capacity of approx. 16,140 tons including dye intermediates and dyestuffs while the permitted capacity is approx. 32,800 tons p.a. Hence, our Company is largely dependent on the upcoming facility for further growth of our business. Our Company has received approval from Gujarat Pollution Control Board (GPCB) for their consent to establish this facility with the list of intermediates we intend to manufacture. Our Company has also received the No Objection Certificate from GPCB. However, any non-compliance with their rules and regulations, unavailability of the required funds for machineries, or any other internal or external factors within or beyond our control may adversely affect our expansion plan and may hinder the growth of our business. We may not be able to assure about the timely commencement of the proposed facility which may also possess a blockage to the growth plans of the company and cause stress on capital structure of the company.

7. We have not placed orders for 100% of the Plant & Machineries which will be required to be installed in the new manufacturing facility.

Our Company has planned to set-up a new manufacturing facility in which company intends to increase its production capacity of manufacturing dyes. Further, the company also plans to

manufacture certain intermediates which are required for manufacturing of dyestuffs. For this purpose, the Company has already acquired land at Saykha Industrial Estate – Dahej and our company has finalised the list of the machineries which are to be purchased. However, the plant and machineries which are to be installed are yet to be ordered and none of the machinery has been purchased. Further, we have not entered into any definitive agreement with any of the suppliers for the purchase of the machineries.

8. *We are in business related to chemicals which faces excessive government regulations.*

Dye chemical business involves use of numerous toxic acids and its related chemical components. Usage of such intermediates is hazardous to the environment as a whole. This leads to excessive government focus and regulations to be followed in such business model. With increased compliances and regulations, Company faces challenges on many aspects such as control on use of materials, discharge of effluent treatment which may affect the business directly. Any such non-compliances may lead to imposition of penalties, fines or imprisonment. Further, operations of the Company may be suspended; manufacturing licenses may be suspended, withdrawn or terminated.

9. *Our Company generates major portion of its revenue from export operations. Any problems in such geographies may affect our business adversely.*

Our company manufactures dyestuffs and exports it to many countries like, Turkey, Egypt, Bangladesh, Pakistan etc. Our company has generated around 58.9% and 59.5% of its total revenue from export operations for the period ended 31st December, 2017 and for the year ended F.Y. 2016-17. The company's performance is largely dependent on the political and economic conditions in these regions. Any adverse situation in these regions may affect our business substantially. We believe the customer base which we have created over the years is strong enough to weather any such conditions, however, we may not guarantee that any problems in these region will not affect our business.

Consequently, any adverse changes in these economies such as slowdown in the economy, appreciation of the Indian Rupee vis-à-vis the currencies of these economies, acts of terrorism or hostility targeting these countries, etc. would directly impact our revenues and results from operations. In the event of change in policies or laws in these regions with respect to our industry, quality standards, our financial condition and business operations may be adversely affected. In case of any contingencies in future due to which we are unable to operate effectively in these markets, our results from operations, revenues and profitability may be adversely affected.

10. *Our export operations are largely dependent on various treaties and government agreements between India and foreign nations.*

Our Company derives substantial portion of its revenue from exporting its products outside India. In this regards, our business with such countries are largely dependent on the signed treaties and agreements signed between such governments. Signed treaties and agreements controls the rules, regulations, prohibitions among other important factors which decides the trade relations between the countries which have entered into treaties and agreements. We have been able to trade with these countries owing to liberal and favourable treaties and business relations among the nations. However, with increasing competition and escalating trade wars situations, countries may impose certain restrictions, prohibitions or imposition of unfavourable terms, which may lead to inferior operational and financial performance.

11. *Our manufacturing unit and proposed manufacturing facility is situated on plots that are taken on long-term lease from G.I.D.C., and we will have to comply with the terms and conditions/covenants laid down in lease agreements with G.I.D.C., noncompliance of the same may affect our business operations.*

Our Company has its manufacturing unit situated at 88/6-8, GIDC Phase I, Vatva, Ahmedabad – 382445, Gujarat, India within G.I.D.C. limits. The said plot is taken on long-term lease from G.I.D.C. Further, the proposed manufacturing facility at Saykha Industrial Estate of Dahej, Gujarat has also been taken on long term lease from G.I.D.C. We have been complying with all on-going

requirements of G.I.D.C. and as on date of this Draft Prospectus there are no litigations or disputes on our occupancy of such land with G.I.D.C. However, any defaults in complying with the said terms and conditions/covenants on our part may be subjected to penal provisions and it may also lead to the cancellation of such lease, which will adversely affect our business, financial conditions and results of operations.

12. *Delay in schedule of the setting up of facility may subject our Company to risks related to time and cost overrun which may have a material adverse effect on our business, results of operations and financial condition.*

Our Company is currently proposing to set-up a new manufacturing facility at Saykha GIDC, Dahej. For further details regarding to our proposed manufacturing facility, please refer the chapter titled "*Objects of the Issue*" on page 100 of this Draft Prospectus. We may face risks relating to the delay in schedule of setting up of facility, complete the project within our estimated budget, failure of our contractors and suppliers to adhere to our specifications and timelines, and changes in the general economic and financial conditions in India. Further as and when we complete our set-up work, our material requirements and costs as well as our staffing requirements and employee expenses may increase and we may face other challenges in extending our financial and other controls to our unit managing our consequent growth. In the event that the risks and uncertainties discussed above or any other unanticipated risks, uncertainties, contingencies or other events or circumstances limit or delay our efforts to use the Net Proceeds to achieve the planned growth in our business, the use of the Net Proceeds for purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of your investment in our Equity Shares.

13. *We depend on a limited number of customers for a significant portion of our revenues. The loss of a major customer or significant reduction in production and sales of, or demand for our products from, our major customers may adversely affect our business, financial condition, results of operations and prospects.*

We derive our entire operational revenues from sale of dyestuffs in the domestic as well as overseas market. We depend on a limited number of customers for a significant portion of our revenues. Revenue from our top 10 and top 5 customers constituted 42.87% and 29.20% of our revenue for Financial Year 2016-17. We face competition from both domestic and international manufacturers in the international market. However, we believe that we have good and long term relationship with our customers, any loss of customer base or reduction in volume of orders, out of our existing customers, will impact our overall sales, resulting in a decline in our revenues. While we are constantly striving to increase our customer base and reduce dependence on any one particular customer, there is no assurance that we will be able to broaden our customer base in any future periods or that our business or results of operations will not be adversely affected by a reduction in demand or cessation of our relationship with any of our major customers.

14. *Our dependence on few suppliers puts us at risk of interruptions in the availability of raw materials, which could adversely affect our business, financial condition and results of operations. Further, we have not entered into any long-term agreements with our suppliers for raw materials and accordingly may face disruptions in supply from our current suppliers.*

We procure raw materials / intermediates required for the manufacturing of dyestuffs from various companies in the domestic market. We chose to deal with suppliers on the basis of quality assurance, cost effectiveness and relationships. Though we prefer to deal with a fixed set of suppliers with whom we have cordial relationships, there are no fixed suppliers for our raw material purchases and we have not entered into any fixed supply agreement or MoU or any other arrangement with any of our suppliers. Our top 10 and top 5 suppliers contributed 70.3% and 50.22% of our Total Purchases for the F.Y. 2016-17.

These suppliers have accorded their trust and service based on our long operating history in the industry, our credit worthiness, and our goodwill. However, in the absence of written agreements, our suppliers are not bound to supply goods to us and can withdraw their commitments from us at

any time. There can be no assurance that there will not be a significant disruption in the supply of raw materials from current sources, or, in the event of a disruption, that we would be able to locate alternative suppliers of the raw materials of comparable quality on terms acceptable to us, or at all. Identifying a suitable supplier involves a process that requires us to become satisfied with their quality control, consistency, responsiveness and service, financial stability and other ethical practices.

15. *Our performance is majorly dependent on textile and garment Industry. Any slowdown in these sectors may adversely impact our financial performance.*

Our products, dyestuffs are used in textile industry for dyeing the cloths. Growth of dye industry is directly related to the progress of the textile industry. With increased manufacturing activity in textile and garment sector, there would be drive in demand for the dyestuffs. Any slowdown in the concerned sectors would hamper the demand scenario which may lead to under-utilization of capacity owing to reduced sales. With lower capacity utilization, there would be an increase in cost burden ultimately affecting the operational and financial performance of the company adversely.

16. *Our statutory auditor has included an audit qualification in its audit reports for the year ended March 31, 2012 to March 31, 2017.*

Our Statutory Auditor in its Audit report for the year ended 31st March, 2012 to 31st March, 2017 has made a qualification, which read as under:

“The company does not include excise duty payable on the unsold stock of finished goods in Valuation of finished goods as required under Accounting Standard – 2 “Valuation of Inventories” in respect of valuation of inventories, which constitutes departure from the Accounting Standard specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. However, such non-inclusion of excise duty will not affect the profit of the year”.

Other than as mentioned above, our Company did not had any qualifications from the auditors, however, this may not guarantee that such qualifications may not occur in future if there is any violation of relevant accounting standards.

17. *Our Company has changed an accounting policy in last 3 years.*

Our Company during the applicability of Companies Act, 1956 was following an accounting policy for depreciation on Plant & Machineries considering the useful life as 40 years. With the applicability of Companies Act, 2013 and rules thereon, our Company changed the accounting policy for depreciation on Plant & Machineries from 40 years to 15 years and therefore the rates of deprecation have been changed accordingly. However, this change is in compliance with the relevant provisions and accounting standards as applicable, we may not be able to assure of any further changes in accounting policy which may impact the profitability and presentation of financial statements.

18. *We do not have any offshore office or business place to look after our export operations.*

We sell our products to both domestic as well as international markets. A major portion of our revenue from operations is derived from international markets. However, we do not have any offshore office as a result of which we may not be able to capitalize on opportunities offered by the evolving international tiles sector in a timely manner. The business operations of our Company are mainly handled from our registered office located at Gujarat. Apart from this, our Company does not have any place of business overseas either in the nature of liaison office or corporate office. Owing to this, we may not be able to expand our business effectively in the international market, thereby affecting the results of operations and profitability.

19. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

Our foreign exchange transactions are not hedged. Our Company has derived approx. 58.91% of revenue from export operations in FY 2016-17. We export our products and receive sale proceeds in foreign currency denominated in USD. Changes in value of currencies with respect to the Rupee

may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. As our exposures are not hedged, we are exposed to foreign currency fluctuation risk and may affect our Company's results of operations. However, our Company has gained on account of foreign exchange fluctuation to the extent of Rs. 6.88 Lakhs for the period ended 31st Dec, 2017.

20. *The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operational and financial conditions.*

The market for our products is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, quality of products, customer base, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

21. *Our manufacturing facilities are located at Gujarat. Any delay in production at, or shutdown of, or any interruption for a significant period of time, in these facilities may in turn adversely affect our business, financial condition and results of operations.*

Our Company has its manufacturing facilities are located at Vatva in Gujarat. Our success depends on our ability to successfully manufacture and deliver our products to meet our customer demand. Our manufacturing facility is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, earthquakes, other natural disasters and industrial accidents and similar events. Further, our manufacturing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal penalties. If our Company experiences delays in production or shutdowns due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company's operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

22. *Our Company has negative cash flows from its investing and financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.*

Our Company had negative cash flows from its investing and financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under:

Amount (Rs. In lakhs)

Particulars	For the period ended 31 st Dec, 2017	For the year ended 31 st March			
		2017	2016	2015	2014
Cash Flow from / (used in) Operating Activities	166.12	412.25	191.87	309.63	113.58
Cash Flow from / (used in) Investing Activities	(313.20)	(171.65)	(155.97)	(570.82)	(165.10)
Cash Flow from / (used in) Financing Activities	185.39	(368.71)	99.44	189.08	111.20

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising

finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

23. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and trade payables. Summary of our working capital position is given below:-

Amount (Rs. In lakhs)

Particulars	For the period ended 31 st Dec, 2017	For the year ended 31 st March			
		2017	2016	2015	2014
A. Current Assets					
(a) Inventories	325.82	277.38	239.91	232.52	407.65
(b) Trade receivables	623.36	514.38	488.49	488.95	578.25
(c) Cash and cash equivalents	52.87	14.55	142.67	7.32	79.42
(d) Short-term loans and advances	264.48	242.05	142.18	159.72	289.76
B. Current Liabilities					
(a) Trade payables	552.70	666.22	457.30	528.43	723.76
(b) Other current liabilities	219.71	102.48	151.57	109.27	31.66
(c) Short-term provisions	97.92	106.78	89.13	65.22	119.24
Working Capital (A-B)	396.18	172.88	315.25	185.59	480.42
Trade Receivables as % of total current assets	49.22%	49.07%	48.21%	55.03%	42.67%
Trade Payables as % of total current liabilities	63.5%	85.48%	65.51%	75.17%	82.74%

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables and trade payables. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 100 of this Draft Prospectus.

24. Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

We believe that the industry in which we operate face competitive pressures in recruiting and retaining skilled and unskilled labour. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past; there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment.

We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized,

there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

- 25. *We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of “USHANTI COLOUR CHEM LIMITED” from “USHANTI COLOUR CHEM PRIVATE LIMITED” pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.***

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business Approval like TAN allotment letter is currently not traceable and the Company has not applied for Udyog Aadhaar Memorandum. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Additionally, our company is in the course of expansion of its business. It shall be establishing Unit II as a part of expansion. There are a complete series of mandatory approval and other certifications to be applied by the Company as mentioned in “Mandatory Approvals related to Proposed Unit II yet to be applied by the Company” in the Government and Other Statutory Approvals Chapter. In case of any failure to obtain the same, it may adversely affect our business operations. For more information, see chapter “Government and Other Statutory Approvals” on page 209 of this Draft Prospectus.

- 26. *We are subject to various laws and regulations relating to the handling and disposal of hazardous materials and wastes. If we fail to comply with such laws and regulations, we can be subjected to prosecution, including imprisonment and fines or incur costs that could have a material adverse effect on the success of our business.***

The Environmental Protection Act, 1986, as amended, the Air (Prevention and Control of Pollution) Act, 1981, as amended, the Water (Prevention and Control of Pollution) Act, 1974, as amended and other regulations promulgated by the Ministry of Environment and Forest and various statutory and regulatory authorities and agencies in India regulate our handling of hazardous substances and wastes. We are required to obtain registrations from the relevant State Pollution Control Board to be able to handle and dispose hazardous and wastes. We are also required to take a number of precautionary measures and follow prescribed practices in this regard. Our failure to comply with these laws could result in us being prosecuted, including our directors and officers responsible for compliance being subjected to imprisonment and fines. We may also be liable for damage caused to the environment. Any such action could adversely affect our business and financial condition.

- 27. *Our export operations are majorly done via Pipavav Port and Mundra Port in Gujarat. Thus, the growth of our business is directly linked to facilities provided at these major ports and Infrastructural development on these ports.***

Our export operations outside India are primarily done from the Pipavav and Mundra ports in Gujarat. The Mundra Port is one of the largest ports in India and any interruption in port or any sanctions by the GoI on the facilities at these ports could adversely affect our business operations and financial position and thereby affecting the overall profitability of the business.

- 28. *The shortage or non-availability of power and water facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.***

Our manufacturing processes requires substantial amount of power and water facilities. The quantum and nature of requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of supply since it involves significant capital expenditure and per unit cost produced is very high. We are mainly dependent on State Government for meeting our electricity and water requirements. Any defaults or noncompliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability. Further, since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power.

- 29. *We are dependent on third party transportation providers for transportation of raw materials and finished goods. Accordingly, any increase in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business.***

Our company is engaged in manufacturing of dyestuffs and have our manufacturing facility at Vatva, Gujarat. We procure raw materials from manufacturers in Gujarat. Also, our finished goods are sold and delivered to various locations across the country and exported to various other countries. Most of these raw material and finished products are transported to and from our manufacturing unit by third party transportation providers. Transportation strikes could have an adverse effect on our receipt of goods, raw materials and our ability to deliver our products to our customers. Non-availability of ships, barges and trucks could also adversely affect our receipt of goods, raw materials and the delivery of our products.

Further, India's physical infrastructure is less developed than that of many developed nations, and problems with its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of goods, raw materials and the delivery of our products to customers by third-party transportation providers. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

- 30. *Our Company's failure to maintain the quality and concentration of the dyestuffs or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.***

Our products depend on recent trends and developments as we manufacture and market the products as per the market trends. Any failure to maintain the quality standards patterns may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Also, rapid change in our customers' expectation on account of changes in technology or introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. While, we believe that we have always introduced quality products based on consumers need to cater to the growing demand of our customers and also endeavour to regularly update our existing technology, our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results.

- 31. *We have not entered into any definitive agreements with our customers. If our customers choose not to buy their products from us, our business, financial condition and results of operations may be adversely affected and our business are on purchase order basis with our customers.***

We have not entered into any definitive agreements with our customers, and instead we majorly rely on Purchase orders to govern the volume, pricing and other terms of sales of our products. However, such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place. Consequently, there is no commitment on the part of the customer to continue to source their requirements from us, and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers vendor preferences. Any failure to meet our customers' expectations could result in cancellation of orders. There are also a number of factors other than our performance that are beyond our control and that could cause the loss of a customer. We do not have long-term contracts with our customers and there can be no assurance that we will continue to receive repeat orders from any of them, including our long-standing customers. Further, even if we were to continue receiving orders from our clients, there can be no assurance that they will be on the same terms, and the new terms may be less favourable to us than those under the present terms.

32. *We have in the past entered into related party transactions and may continue to do so in the future.*

Our Company has entered into various transactions with our Promoter, Directors and their Relatives. While we believe that all such transactions are conducted on arm's length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter "Related Party Transactions" beginning on page 181 of the Draft Prospectus.

33. *We are subject to risks associated with expansion into new geographic regions.*

Expansion into new geographic regions, including different states in India, subjects us to various challenges, including those relating to our lack of familiarity with the culture, legal regulations and economic conditions of these new regions, language barriers, difficulties in staffing and managing such operations, and the lack of brand recognition and reputation in such regions. For instance, we intend to set up new stores in certain parts of northern India. The risks involved in entering new geographic markets and expanding operations, may be higher than expected, and we may face significant competition in such markets. By expanding into new geographical regions, we could be subject to additional risks associated with establishing and conducting operations, including, laws and regulations, uncertainties and customer's preferences, political and economic stability.

By expanding into new geographical regions, we may be exposed to significant liability and could lose some or all of our investment in such regions, as a result of which our business, financial condition and results of operations could be adversely affected.

34. *Under-utilization of manufacturing capacity at our unit may affect our business which in turn may affect our results of operations.*

Presently, our manufacturing facility operates at an efficiency level in excess of 90% of its installed capacity. Further, we are in the process of establishing a new manufacturing facility at Dahej. In the event that we are unable to fully utilize the increased capacity, our cost of production owing to fixed costs may increase substantially which may adversely affect our result of operations.

35. *Our Company has lapsed/delayed in making the required filings under Companies Act, 2013. Our Company also has not complied with certain statutory provisions under Companies Act. Such non-compliances/lapses may attract penalties.*

Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013 and under the applicable provisions of the Companies Act, 1956. Some of which has not been done within the stipulated time period at some instances. For instance, our Company has lapsed in filing of Form 20B by mentioning wrong number of shares of Mr. Shantilal Gandhi and Mr. Maunal Gandhi in the form for financial year 2003-04, 2004-05 and 2005-06.

Although, we have not received any show-cause notice in respect of the above, such delay/non-compliance may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company has now appointed a Company Secretary and is in the process of setting up a system to ensure that requisite filings are done appropriately with the requisite timeline.

36. *Our insurance coverage may not be adequate.*

Our Company has obtained insurance coverage in respect of certain risks. We have taken insurance policies such as Marine, Standard Fire and Special Perils Policy policy. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, losses due to terrorism, etc. Further there can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled “*Our Business*” beginning on page 129 of this Draft Prospectus.

37. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

38. *Our operations may be adversely affected in case of industrial accidents at any of our production facilities.*

Usage of heavy machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Though our plants and machinery are covered under insurance, occurrence of accidents could hamper our production and consequently affect our profitability.

39. *Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- Environment (Protection) Act, 1986
- Air (Prevention and Control of Pollution) Act, 1981
- Water (Prevention and Control of Pollution) Act, 1974
- Hazardous Waste Management & Handling Rules, 2008
- The Indian Boilers Act, 1923
- Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Boards of the state of Gujarat

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non - compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

40. *We have issued Equity Shares during the last 12 months at a price which may be below the Issue price.*

We have issued certain Equity shares in the last twelve months at a price that are lower than the Issue price. Details of such issuances are given in the table below:

Date of Allotment	No. of Equity Shares	Issue price	Nature of allotment
March 16, 2018	48,87,000	Nil	Bonus Issue

For further details of equity shares issued, please refer to the section titled “*Capital Structure*” beginning on page no. 78 of the Draft Prospectus.

41. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 505.05 Lakhs as on December 31, 2017. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information on the “*Financial Indebtedness*” please refer to page 200 of this Draft Prospectus.

42. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure. Further, we are required to maintain certain financial ratios.*

There can be no assurance that we will be able to comply with these financial or other loan covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “*Financial Indebtedness*” on page 200 of the Draft Prospectus.

Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

43. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to

raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “*Objects of the Issue*” beginning on page 100 of this Draft Prospectus.

44. *Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.*

As on December 31, 2017, our Company has unsecured loans amounting to Rs. 876.05 lakhs from related and other parties that are repayable on demand to the relevant lender. Further, some of these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled “*Financial Statements as Restated*” beginning on page 183 of this Draft Prospectus.

45. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 182 of this Draft Prospectus.

46. *Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 100 of this Draft Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue.*

We intend to use Issue Proceeds towards meeting the fund required for expansion, towards repayment of secured loan, general corporate purpose and to meet the issue expenses. We intend to deploy the Net Issue Proceeds by financial year 2019-20 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 100 of this Draft Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has been appraised by ANA & Associates. Accordingly, within the parameters as mentioned in the chapter titled “*Objects of the Issue*” beginning on page 100 of this Draft Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, and relevant provisions of SEBI ICDR Regulations, 2009, a company shall not vary the objects of the offer without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to

the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

47. *Our Company intends to utilise part of the proceeds of this Issue towards repayment of secured borrowings.*

As mentioned in the “Objects of the Issue” beginning on Page 100 of this Draft Prospectus, we intend to utilise part of the proceeds towards repayment of certain secured borrowings availed by the Company. The rate of Interest charged on these borrowings are 9.5% and 12.5%. However, our Company has also certain borrowings for which higher rate of interest is charged by our lenders and the same is yet to be repaid. Our decision of repayment of lower rate borrowings prior to repaying borrowings with higher rate of interest may impact our finance cost consequently leading to lower profitability.

48. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since, the Issue size is less than Rs.10,000 lakh, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

49. *Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

50. *Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel (“KMP”). They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for KMP in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

51. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Our Directors and Key Managerial Personnel (“KMP”) are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and KMP may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 78 and 161, respectively, of this Draft Prospectus.

- 52. *Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.***

After completion of the Issue, our Promoters and Promoter Group will collectively own 73.62% of the Equity Shares. As a result, our Promoter together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AoA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 53. *We have taken guarantees from Promoters and members of Promoter Group in relation to debt facilities provided to us.***

We have taken guarantees from Promoters and members of Promoter Group in relation to our secured debt facilities availed from our Bankers. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please see the chapter titled “*Financial Indebtedness*” beginning on page 200 of this Draft Prospectus.

- 54. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.***

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

- 55. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.***

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

- 56. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.***

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the Floor Price of the Price Band as may be decided by the Company in consultation with the LM. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title “*Capital Structure*” beginning on page 78 of this Draft Prospectus.

- 57. *Negative publicity could adversely affect our revenue model and profitability.***

Our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations. Further, our brand may also be affected if there is any negative publicity associated with our products.

58. *Industry information included in this Draft Prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Draft Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although, we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Prospectus.

59. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

ISSUE SPECIFIC RISKS

60. *There are restrictions on daily/weekly/monthly/annual movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by stock exchange in India i.e. National Stock Exchange of India Limited, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given

regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

61. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares is Rs. 60/-. This price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page 108 of this Draft Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

62. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

63. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchange may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company’s results of operations and financial performance;
- Performance of Company’s competitors;
- Adverse media reports on Company or pertaining to the Industry in which we operate;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India’s economic and fiscal policies; and
- Significant developments in India’s environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

64. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor’s demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of

the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchange, we are required to refund all monies collected to investors.

65. *QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid Period and withdraw their Bids until Bid Closing Date. While our Company is required to complete Allotment pursuant to the Issue within six Working Days from the Bid Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISK FACTORS

INDUSTRY RISKS

66. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

OTHER RISKS

67. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Prospectus.*

As stated in the reports of the Auditor included in this Draft Prospectus under chapter "*Financial Statements as restated*" beginning on page 183, the financial statements included in this Draft Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Prospectus. Accordingly, the degree to which the financial information included in this Draft Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

68. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under the Income-tax Act, 1961, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India except any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the Securities Transaction Tax ("STT") has been paid on the transaction. The STT will be levied on

and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of shares on a stock exchange held for a period of 12 months or less will be subject to short term capital gains tax. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, Section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to STT under Chapter VII of the Finance (No 2) Act, 2004. In this case, this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long term capital gains exceeds Rs. 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of Rs. 1,00,000/- pa. shall be chargeable at the rate of 10%.

Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

69. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to “*Key Industry Regulations and Policies*” on page 144 for details of the laws currently applicable to us. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge currently being collected by the central and state governments. The GST is expected to increase tax incidence and administrative compliance. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

Further, the general anti avoidance rules (“GAAR”) provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18 onwards and the same may get triggered once transactions are undertaken to avoid tax. The consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

70. *Financial instability in Indian financial markets could adversely affect our Company’s results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

71. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The GoI has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

72. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

73. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

74. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

75. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

76. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

77. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

SECTION III - INTRODUCTION

SUMMARY OF INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. INTRODUCTION TO DYE CHEMICAL INDUSTRY

Basic dye chemicals and their related products (petrochemicals, fertilisers, paints, varnishes, glass, perfumes, toiletries, pharmaceuticals, etc.) constitute a significant part of the Indian economy. Among the most diversified industrial sectors, chemicals cover an array of more than 70,000 commercial products. In April-June 2017, total Foreign Direct Investments (FDI) in chemicals (excluding fertilisers) stood at US\$ 679 million whereas cumulative FDI till June 2017 from April 2000 was US\$ 13.972 billion. India is the sixth largest producer of chemicals globally and third largest producer in Asia in terms of output. The country ranks third globally in the production of agro chemicals and contributes around 16 per cent to the global dyestuff and dye intermediates production.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China’s unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global

economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.
- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OVERVIEW OF INDIA'S ECONOMIC PERFORMANCE IN 2017-18

Economic activity

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 17) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering (Figures 19 and 20).

Figure 19. Sale of Motorcycles
(Seasonally adjusted, in thousands)

Figure 20. Sale of Passenger Cars
(Seasonally adjusted, in thousands)

Perhaps most significantly, the behaviour of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding (Figure 21).

On demonetization specifically, the cash-to-GDP ratio has stabilized, suggesting a return to equilibrium. The evidence is that since about June 2017 the trend in currency is identical to that pre-demonetization (Figure 22). The stabilization also permits estimation of the impact of demonetization: about Rs. 2.8 lakh Crores less cash (1.8 percent of GDP) and about Rs. 3.8 lakh Crores less high denomination notes (2.5 percent of GDP).

Figure 21. Services Export Growth (percent) and Net Private Remittances (in US\$ billion)

Source: RBI, Survey calculations.

Figure 22. Currency in Circulation (CIC) and High Denomination Notes (HDN) (In Rs. lakh crore)

Source: RBI, Survey calculations; Numbers in green denote HDN as share of CIC.

A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers. Meanwhile, overall revenue expenditure growth by the central and state governments at remains strong at 11.7 percent (April to November). Cyclical conditions may also lead to lower tax and non-tax revenues, which act as an automatic stabilizer.

All this said, while the direction of the indicators is positive, their level remains below potential. IIP growth (April-November 2017 over same period in the previous year) is 3.2 percent, real credit growth to industry is still in negative territory, and the growth in world trade remains less than half its level of a decade ago. Moreover, even though the cost of equity has fallen to low levels, corporates have not raised commensurate amounts of capital, suggesting that their investment plans remain modest (Box 6).

In other words, the twin engines that propelled the economy's take-off in the mid-2000s – exports and investment – are continuing to run below take-off speed.

Meanwhile, developments in the agriculture sector bear monitoring. The trend acceleration in rural wages (agriculture and non-agriculture), which had occurred through much of 2016 because of increased activity on the back of a strong monsoon, seems to have decelerated beginning just before the kharif season of 2017-18 (Figure 23) but it is still greater than much of the last three years. Three crop-specific developments are evident. Sowing has been lower in both kharif and rabi, reducing the demand for labor. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farmgate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO-forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter.

Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI's forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO's forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO's 9.5 percent estimate.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent.

Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up, and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices requires tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Another key determinant of growth will be the implementation of the IBC process. Here timeliness in resolution and acceptance of the IBC solutions must be a priority to kick-start private investment. The greater the delays in the early cases, the greater the risk that uncertainty will soon shroud the entire IBC process. It is also possible that expeditious resolution may require the government to provide more resources to PSBs, especially if the haircuts required are greater than previously expected, the ongoing process of asset quality recognition uncovers more stressed assets, and if new accounting standards are implemented.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. (Box 9 suggests that India's stock price surge is different from that in other countries but does not warrant sanguine-ness about its sustainability.) Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions.

Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

GLOBAL MANUFACTURING SECTOR

World manufacturing growth

World manufacturing growth accelerated in the third quarter of 2017, as economic recovery strengthened worldwide. Positive results reported in the First half of this year carried over into the third quarter. Steady progress over several consecutive quarters characterizes both industrialized and developing and emerging industrial economies, and prospects for sustained global industrial growth in forthcoming periods are good (Figure 1). For the first time in several years, industrial growth moved back to the positive zone in all of the major economies.

The driving forces behind the positive developments in global manufacturing were improving business conditions, rising consumer spending, promising investment plans directed towards developing economies and healthy external demand support activities. On the other hand, risks for global growth such as concerns where Brexit negotiations will lead to, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated.

Global manufacturing output rose by 4.5 per cent in the third quarter of 2017 compared to the same period of the previous year. This impressive gain was based on an already strong growth throughout the first half of 2017. The disaggregated data points to the thriving performance of major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, the Republic of Korea, Italy as well as Brazil. The manufacturing output of China, the world's largest manufacturer, continued to register a high growth rate in the third quarter.

Industrialized economies as a whole exhibited record-breaking growth at 3.1 per cent in the third quarter of 2017 - the highest manufacturing output growth in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe's dynamic recovery, where a 4.0 per cent growth was achieved. East Asian industrialized economies experienced a healthy 4.5 per cent year-by-year upward trend and the nearly two-year consecutive slump has all but been forgotten. Relative lower growth was observed in the North America region, where manufacturing output expanded by a mere 1.4 per cent.

A reversal of negative trends in Argentina and Brazil has had a considerable impact on recovery in the Latin America region. Manufacturing output of the region rose by 2.5 per cent in the third quarter of 2017, which also resulted in an accelerated growth rate of developing and emerging industrial economies as a whole at 6.2 per cent. A relatively higher increase was achieved by Asia's developing economies with a 6.5 per cent expansion recorded in the third quarter on a year-to-year basis. The manufacturing production of African regions remained in the positive zone of high growth despite the weak foundation of these countries' manufacturing industries. According to UNIDO's latest estimates, African manufacturing experienced a 6.4 per cent year-to-year gain in the third quarter of 2017.

Entering the second half of the year 2017, recovery in global manufacturing has evolved from being relatively modest to becoming more dynamic. Improvements were recorded in both industrialized economies and developing and emerging industrial economies.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Key Findings - Global manufacturing Sector

Global manufacturing production maintained a positive growth rate in all industries in the third quarter of 2017. Advanced manufacturing such as automation, robotics and digital products have been experiencing a steady expansion at the global level. Shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term and, moreover, determines the positioning of economies within the global market. Therefore, the competition between advanced and emerging economies in high-tech leadership will be compelling and crucial for both groups. In the wake of the fourth industrial revolution, embracing emerging technologies brings global manufacturing production to a new level. The high growth rate in medium high and high technology industries observed in the third quarter of 2017 led to an increase in high value goods, indicating a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Medium high and high technology manufacturing industries have repeatedly held top positions when looking at year-by-year comparisons - these industries witnessed a 6.0 per cent growth rate, a record-breaking result in the last five years. When reviewing the individual top industries, the manufacturing of computers, electronics and optical products grew by 8.3 per cent, the production of machinery and equipment rose by 8.0 per cent, the manufacturing of pharmaceutical products by 6.7 per cent (which recorded a visibly accelerated growth rate compared to the results of the previous quarter), the production of electrical equipment by 6.1 per cent and the manufacturing of motor vehicles by 5.9 per cent. The production in all of the above- mentioned industries was dominated by developing and emerging industrial economies compared with industrialized economies (Figure 5).

As regards medium technology manufacturing industries, 2.3 per cent growth was registered worldwide in the third quarter of 2017. The global manufacturing of rubber and plastic products increased by 3.4 per cent in a year-by-year comparison, while the manufacturing of non-metallic mineral products recorded a growth rate of 3.0 per cent. The global manufacturing of basic metals rose at a moderate pace of 1.6 per cent.

In low technology manufacturing industries, overall global production rose by 3.3 per cent in the third quarter of 2017 compared to the same period of the previous year. The global manufacturing of fabricated metal products grew by 4.6 per cent, followed by the manufacturing of furniture with a 4.3 per cent increase. Relatively high growth rates were maintained worldwide in the production of basic consumer goods - the global manufacturing of food products rose by 3.8 per cent, beverages by 3.4 per cent and the global manufacturing of both textile and wearing apparel increased by slightly over 2.5 per cent. The growth rate of the manufacturing of paper products expanded by 2.4 per cent, while coke and refined petroleum products and printing remained below 2.0 per cent.

MANUFACTURING SECTOR IN INDIA

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Market Size

The Gross Value Added (GVA) at basic current prices from the manufacturing sector in India grew at a CAGR of 4.34 per cent during FY12 and FY18 as per the second advance estimates of annual national income published by the Government of India. Quarterly GVA at basic prices from manufacturing sector grew by 10.92 per cent in the third quarter of FY18. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power. Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 73.70 billion during April 2000-December 2017. India has become one of the most attractive destinations for investments in the manufacturing sector.

Government Initiatives

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country.

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors. With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN CHEMICAL INDUSTRY: OVERVIEW

Introduction

Basic chemicals and their related products (petrochemicals, fertilisers, paints, varnishes, glass, perfumes, toiletries, pharmaceuticals, etc.) constitute a significant part of the Indian economy. Among the most diversified industrial sectors, chemicals cover an array of more than 70,000 commercial products. In April-June 2017, total Foreign Direct Investments (FDI) in chemicals (excluding fertilisers) stood at US\$ 679 million whereas cumulative FDI till June 2017 from April 2000 was US\$ 13.972 billion. India is the sixth largest producer of chemicals globally and third largest producer in Asia in

terms of output. The country ranks third globally in the production of agro chemicals and contributes around 16 per cent to the global dyestuff and dye intermediates production.

Key Markets and Export Destinations

Total exports of dyes and dye intermediates, organic and inorganic chemicals, including agro chemicals, cosmetics and toiletries, essential oils, incense sticks and castor oil, stood at US\$ 12.15 billion during the year 2016-17. The US, the UAE, the UK, Bangladesh and Saudi Arabia are the leading importers of cosmetics, toiletries and essential oils. In the year 2016-17, exports of dyes and dye intermediaries increased 2.94 per cent year-on-year to US\$ 2.11 billion. During the period, exports of essential oils, cosmetics and toiletries increased 6.84 per cent to US\$ 15.72 billion and exports of castor oil stood at US\$ 676.43 million. Exports of inorganic, organic and agro chemicals stood at US\$ 7.78 billion, an increase of 4.46 per cent year-on-year.

Basic Chemicals, Pharmaceuticals and Cosmetics Export Promotion Council

The promotion of product groups such as dyes and dye intermediates, basic inorganic and organic chemicals, including agro-chemicals, cosmetics, toiletries, essential oils, incense sticks, castor oil and its derivatives, is handled by the Basic Chemicals, Pharmaceuticals and Cosmetics Export Promotion Council, which is popularly known as CHEMEXCIL. The Council organises promotional events and fairs to help exporters identify potential markets abroad and providing publicity and marketing back-up.

Global Dye Supplier - India accounts for approximately 16 per cent of the world production of dyestuff & dye, intermediates, particularly for reactive acid & direct dyes. Chemical exports from India stood at USD13.58 billion for FY 17 (1). Exports in the chemical industry grew from USD22.43 billion in FY13 to USD26.97 billion in FY16, registering a growth of 4.71 per cent.

(Source: Indian Chemical Industry – India Brand Equity Foundation www.ibef.org)

INDIAN DYES & DYE INTERMEDIATES

India enjoys leading position in the reactive dyes segment (end use in cotton textile segment) with low threat of imports. Demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017. China is the largest producer of dyes intermediates (used for dyes production), disperse dyes (end use in polyester textile segment) and azo dyes. Cheaper imports from China and competition within domestic manufacturers had impacted the profitability of Indian players till FY2013. Nevertheless, structural changes in environmental regulations in China have improved cost competency and sales volume of domestic players while reducing imports of dyes intermediates. Combined total operating income of major players grew by CAGR of 17% during FY2013-FY2017 while PBILDT margins improved significantly from 7.74% during FY2013 to 14.50-16.25% during FY2014-FY2017. This has also resulted in rationalization of debt levels and strengthened debt coverage indicators for the industry. It is expected that domestic dyes industry shall witness growth of around 8.50% over FY2017-FY2022 mainly driven by growth in exports volume and demand from textile industry.

Consequently, dyes intermediate segment is also expected to witness similar demand growth due to demand from dyes and increase in dyes intermediates exports from India. However, it is expected that overall size of dyes and dyes intermediate industry is expected to remain constant during FY2018 despite growth in volume due to correction in sales prices though it is expected to remain far above FY2013 levels. Profitability though expected to be moderated in FY2018 from peak of 16.25% by 150-200 bps on account of stabilization of sales prices of dyes and intermediates (notwithstanding disruption of production in China) and increase in some of the crude linked raw material prices, it shall continue to remain comfortable in the medium term. Although threat of imports from China continues due to its large capacities, improved capital structure of the major industry players is expected to result in strong resilience for the domestic dyes and dyes intermediate players. Furthermore, increase in effluent handling cost, prices fluctuations of intermediates and implementation of goods and service tax (GST) are expected to provide competitive edge to the organized integrated players over un-organized dyes manufacturers lacking backward integration for intermediates.

(Source: Indian Dyes and Dyes Intermediate Industry – CARE Ratings - www.careratings.com)

DOMESTIC DYES INDUSTRY

The dyes industry in India is fragmented and unorganized comprising of more than 800 small scale units and 15-20 large sized organized players manufacturing more than 600 different type of dyes. The western state of Gujarat and Maharashtra accounts for more than 90% of the country's production.

The total installed capacity for various dyes in India is estimated at 3,80,000-4,00,000 MTPA as of FY2017 while the domestic production of the dyes is estimated at 2,05,000 MT during FY2017. The domestic installed capacity and the production is largely driven by the reactive dyes, followed by disperse dyes which majorly finds application across various segments of textile industry.

Over the years the end users focus has shifted from highly toxic azo dyes to reactive and disperse dyes resulting into increased contribution of the reactive dyes and disperse dyes in domestic production during FY2012-FY2017. Overall demand driver for domestic dyes in India is textile Industry with 70% consumption of dyes followed by food (8%), leather (6%), Paper (5%) and other industries (11%). India is the major player in the reactive dyes segment with low threat of imports. Hence, demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017.

(Source: Indian Dyes and Dyes Intermediate Industry – CARE Ratings - www.careratings.com)

OUTLOOK FOR DYE AND DYES INTERMEDIATE INDUSTRY

Demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017. CARE Ratings expects domestic dyes industry to witness growth of around 8.50% over FY2017-FY2022 mainly driven by growth in exports volume and demand from textile industry. Key drivers for growth shall be increase in disposable income, higher penetration in the rural market and around 75% share of cotton fabric in total fabric consumption. Implementation of stringent pollution control norms in China is expected to increase India's share in the global dyes and dyes intermediate market from 16% currently to 20% by FY2021. Consequently, dyes intermediate segment is also expected to witness similar demand growth due to demand from dyes and increase in dyes intermediates exports from India. CARE Ratings expects that overall size of dyes and dyes intermediate industry is expected to remain constant during FY2018 despite growth in volume due to correction in sales prices.

On supply front, capacity addition of 23,000-25,000 MTPA is estimated in the dyes segment over FY2018-FY2019. Dyes intermediate segment has higher entry barriers for environmental clearance due to generation of large quantum of effluent and challenges involved in treating the same. Hence, CARE Ratings doesn't envisage major capacity addition in the dyes intermediate segment over next three years except for balancing capacity of VS and H-acid aggregating around 15,000 MTPA for efficient handling of effluent as well as for captive consumption and 4,000-5,000 MTPA for other intermediates. Significant increase in average sales realization of dyes intermediates and dyes had resulted in healthy profitability for industry players.

Profitability though expected to be moderated in FY2018 by 150-200 bps on account of stabilization of sales prices of dyes and intermediates (notwithstanding disruption of production in China) and increase in some of the crude linked raw material prices, it shall continue to remain healthy in the medium term. Furthermore, increase in effluent handling cost, prices fluctuations of intermediates and implementation of goods and service tax (GST) are expected to provide competitive edge to the organized integrated players over un-organized dyes manufacturers lacking backward integration for intermediates.

SUMMARY OF OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 18 of this Draft Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Draft Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 19 and 183, respectively.

OVERVIEW OF THE BUSINESS:

Our Company was originally incorporated as ‘Ushanti Colour Chem Private Limited’ under the provisions of Companies Act, 1956 at Gujarat *vide* Certificate of Incorporation issued by Registrar of Companies, Gujarat on May 12, 1993. Consequently, it was converted into a public limited company pursuant to shareholders resolution passed at Extra-ordinary General Meeting of our Company held on February 19, 2018 and the name of our Company was changed to ‘Ushanti Colour Chem Limited’ and a fresh certificate of incorporation consequent upon Conversion of Private Company to Public Limited dated March 07, 2018 was issued by Registrar of Companies, Gujarat, Ahmedabad. The Corporate Identification Number of our Company is U24231GJ1993PLC019444.

Our Company is in the business of manufacturing and trading of Dyestuffs since 1993 The Company manufactures Reactive and Direct Dyestuffs also known as Synthetic Organic Dyes with an integrated production process. The company also manufactures Copper Phthalocyanine, Blue Crude which are one of the major raw materials used for manufacturing of Dyestuffs. The pigment and dyestuffs manufactured by us caters to the raw material requirement of textile, garment, cotton, leather, nylon, paper, wool, ink, wood, plastic and paint industries. We concentrate in manufacturing “Turquoise Blue” Dyestuffs and Pigments. The company has 3 manufacturing facilities situated together at Vatva GIDC in Gujarat. The facilities are spread over 2,739 sq. meters in total area. Our company also has its own Ice generation machinery, further it recovers Ammonium Carbonate from its effluent stream which are reused in the plant as well as sold to the Soda Ash Industry reducing wastage giving us incremental revenue. The company currently has a production capacity of approx. 2,520 tons per annum. The manufacturing facilities are equipped with requisite machineries to keep a constant check on quality. The company is an ISO 9001:2015 certified company certifying the quality of the product our company manufactures.

Our Company is promoted and managed by Mr. Maunal Gandhi and Mr. Minku Gandhi. With decades of experience in this industry, our promoters along with the team of management are actively involved in the day-to-day affairs of our company’s operations adding valuable knowledge and experience required for sustainable growth.

Our presence in the business for more than 2 decades have aided us to create a brand image coupled with the industry experience we possess, our brand is well received by the market and we aim to continue to further strengthen our brand by supplying qualitative products at competitive prices across the globe.

Geographical wise sales for F.Y. 2016-17

Our Company generates approx. 41% of its Revenue from Operation from Domestic market while approx. 59% of Revenue is generated by its export operations. The details of geographical break up is as under:

OUR PRODUCTS:

Product Name	Product	Description
Turquoise Blue Dyes		Direct/ Reactive Turquoise Blue dyes are a class of highly coloured organic substances, primarily used for textiles, paper and ink. The Reactive Dyestuffs attach themselves to their substrates by a chemical reaction that forms a covalent bond between the molecule of dye and fibre. The Direct Dyestuffs have multiple applications in Textiles, Inks, Paper but do not react with the substrates.
Alpha Blue		This is a product manufactured by pigmentation of CPC Blue Crude and has very good applications in Textile, Plastic, Paper, Ink, Paint and many other industries.

Copper Phthalocyanine Blue		A bright, crystalline, synthetic blue pigment from the group of Phthalocyanine dyes. It is highly valued for its superior properties such as light fastness, tinting strength, covering power and resistance to the effects of alkalis and acids. It is a Raw Material for production of Turquoise Blue Dyestuffs, Pigment Green, Pigment Alpha Blue & Pigment Beta Blue.

END USERS:

We cater to International and Domestic customers. Currently we offer our products through traders. We manufacture dyes that are used for dyeing cloths in textile and garment industry and are sold as per the orders received by parties either directly from manufacturers or traders.

RAW MATERIALS:

Our company procures more than 10 raw materials of different types and nature. Major raw materials of the company are Vinylsulfone, Phosphorus Trichloride, Soda Ash, Ammonium Molybdate, etc. We meet our raw materials requirements by procuring such materials from domestic market.

OUR COMPETITIVE STRENGTHS:

1. Focus on quality and innovation

We believe our strength and success factor has been our constant focus on quality and innovation. To keep sailing on it, we stress on and constantly strive to improve the quality of our products. We have a dedicated R&D team which constantly works for waste effluent management, improving the quality, alternative cost saving methods and the likes. Our Company is an ISO 9001:2015 certified

and our technically qualified team ensures that we procure raw materials which meet the quality standards. To ensure quality products, we test samples from every lot of raw material in our laboratory and only once they meet the quality criteria, it is further used for production. Further, finished products are also checked with respect to quality, and only after meeting the quality standards, products are considered for packing. We have produced a wide range of colours and their combinations meeting wide range of customers' demands.

2. Experienced Promoters and Management

We have an experienced management team including our promoters who have an experience of more than 2 decades in dyestuff industry. Our Company is led by our promoters, Mr. Maunal Gandhi and Mr. Minku Gandhi who has rich experience and knowledge of the industry. Their vision and values have been the foundation of our growth story. The business which was started just as a trading company has now become an export oriented manufacturing company with further expansions plans in place. We understand quality forms an important aspect in dyestuff industry and hence we have established a qualified technical team to ensure quality output. It is through the constant vision and experience of our management team including the promoters, we have been able to build a sustainable business model and created a wide market reach. We strongly believe that the success of our organization lies in the efforts of our human resources.

3. Intermediates Production

Dyestuffs manufacturing involves use of many raw materials and intermediates in the whole process, prices of which are highly volatile and forms a significant part of total manufacturing costs. Further, dependency on third party suppliers affects the overall costs. Hence, our company has been into manufacturing of one of the intermediates, CPC Blue, which helps us to reduce our dependency on third parties, saving us substantial amount.

4. Locational Advantage leading to reduction of cost

Reducing cost of production is an inherent activity which our company has been focussing on since its inception. Procuring raw material at a competitive price effects our financial position substantially. We procure almost all of our raw materials mostly from domestic players having their facility/warehouses in close proximity to our manufacturing facility hence reducing the cost of transportation without compromising on the quality of the raw material procured. It also ensures us a continuous supply of raw materials. Further, our upcoming facility is strategically located at Bharuch, Gujarat which is approx. 15 kms from the nearby port which will further help us reduce our overall cost.

5. Established relationship with clients

Our company generates most of its revenue from export operations, it has trusted buyers in foreign countries from which we receive repeated orders in frequent intervals. The repetition of orders is basically owing to the quality of the products we provide and also the healthy relationships we maintain. Our promoter visits regularly to our foreign traders to understand their needs, concerns and address them personally. We understand the dye industry is highly competitive and maintaining healthy relationships will help us to beat the competition.

OUR BUSINESS STRATEGY:

Our vision is to grow in existing and new markets by providing quality products. We intend to capitalize on the growing demand for our products in India and abroad. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business.

1. Business expansion

We started our business in 1993 and steadily increased the capacity to around 2,520 tons per annum. With the customer base we already have, rich experience we possess and the growth we foresee due to structural shift of demand to India, we intend to tap the opportunity by expanding our business by setting up a new facility with a manufacturing capacity of around 16,140 tons per annum in various phases while the permitted capacity is around 32,800 tons p.a. To implement this, we have already purchased a land measuring 75,060 sq. meters in Saykha Industrial Estate - Bharuch, Gujarat. The machineries required for this facility would be funded partly by proceeds of this issue and partly from other sources of funds. The facility is expected to commence by F.Y. 2020-21 in various stages.

2. Reduction of costs

Our company acknowledges the fact that having a manufacturing facility which will enable manufacturing of dye intermediates is an effective way of reducing costs. Till date, we have been procuring raw materials and intermediates from third parties the prices of which are volatile and affect our overall profitability adversely. However, our management aims to manufacture certain more intermediates in the new facility which will aid us to reduce our overall costs along with reducing the dependency on third party suppliers.

3. Vertical integration of production process

The company intends to increase the research and development efforts to develop manufacturing process for a wider range of dyes products, by vertically integrating the production processes. This will serve as an effective cost cutting as well as expansion measure. This can be done through continual improvement in technology, cut manufacturing costs through process improvement, develop new product lines which are environmentally responsible.

4. Expanding customer base

Dye manufacturing is done only in India, China and Indonesia. However, India and China meets the substantial portion of global demand and hence the market for manufacturers in India is huge. The company's product is currently marketed majorly in Asia and Middle East. The strategy going forward is to cater the market of other international locations, viz., UK, USA, Canada, etc. The demand for dye is ever increasing including in India where catering to newer customer will be comparatively an easier task.

5. Capacity expansion

Our company is currently operating at around 90% of its capacity. With the strong relationship we possess with our customers, marketing our product can be done without much effort. Since, the market with the buyer is readily available, we intend to ramp up our production to boost the revenue. As mentioned in the “*Objects of the issue*” in Page 100 of this Draft Prospectus, we would be increasing our overall production capacity which will enable us to enter into new phase of growth.

SWOT ANALYSIS:

Strengths:

1. Locational Advantage –

The manufacturing facility of our company is located at Vatva GIDC, Gujarat and the new proposed plant is located in Saykha Industrial Estate in Dahej, Gujarat which is 15 kms from Dahej Port allowing easy export to major markets. Raw material procurement are mostly done from players within Gujarat which are in near proximity to the manufacturing facility. This reduces our costs significantly.

2. Strong customer base –

We supply our products to traders in foreign countries. These customers bring repetitive orders and ensures continuous business to our company. This industry being a highly competitive industry requires strong customer base to grow and stay ahead.

3. Experienced management –

Our promoters are in the dye industry for more than 2 decades. Our technical team is led by qualified people who has the relevant technical knowledge. Their knowledge and experience gives our company a major benefit in devising and implementing the perfect strategy to stand above the competition.

Weakness:

1. Presence in one type of colour –

Although the company is producing variety of color shades in Reactive Blue dyes, we are majorly present only in 1 color, i.e., Blue. This restricts us to cater wider category of customers. However, going forward, our company intends to expand its portfolio to multi-colors with dyestuff/intermediates integrated plants of Blacks and other colors.

2. Dependent on third party suppliers –

Our company procures most of the Dye intermediates from third party producers. It does not have its own manufacturing facility for producing all the required intermediates and hence is dependent on third parties to some extent. In the past, company has faced profitability issues owing to sudden increase in prices of intermediates, we are prone to such threats by our suppliers. However, the relationship and the volume of business we generate for them mitigates this weakness of us. Further all new plants proposed to be commissioned are with backward integration of raw materials intermediates also.

3. Failure to implement plans –

We believe successful implementation of strategy is more important than devising the strategy. If the plan as envisaged is not implemented properly, it may affect the business. However, with the decades of experience our management possess and the past trend of our business, we believe we would implement our strategies at the right direction without any difficulties.

Opportunities:

1. Decreasing competition from China –

Dye industry has only 2 major players across the globe, India and China apart from Indonesia. With increasing environmental norms and strict governmental regulations w.r.t operating a chemical industry, the competition which was being faced due to China is slowly eroding. There have been shutdowns of many facilities in China positively impacting the dye industry in India consequently growth in Dye prices. With decrease in total supply, dye manufacturers have huge opportunity both in terms of volume and value.

2. Introduction of GST –

Introduction of GST is expected to benefit all the organized sector players in the industry in long term. This will help the organized players like ours to tighten their grip over the market by maintaining a cost structure more efficient than that of any unorganized local manufacturers. Indian Dyes and Dyestuff market is highly fragmented, with 40-50% of the market being unorganised. The recent events including GST, stricter environment norms, rising compliance needs from global clients could eventually lead to a need to consolidate, large and efficient players growing higher than the industry and smaller units closing or consolidating with large players.

Threats:

1. Increasing competition –

Dye industry is highly competitive which faces competition from both organised and unorganised player. Our company faces tough competition from them in terms of pricing and customer base. Further, there is contingency on the longevity of benefit accruing due to restrictions in China. There may be turnaround in China's dye industry which possess huge threat to Indian market. However, our company has been successful enough to compete with them with increasing market share.

2. Regulatory risks –

Our company deals in hazardous chemicals. Hyaluronic acid, one of the products that is used in dye manufacturing is the most polluting industrial effluent. It is toxic and non-biodegradable. Hence here there is huge amount of compliance risk wherein it is obvious to state that if the Company fails to comply with Environmental Laws and Regulations, the results of operations will be adversely affected.

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Lead Manager have entered into an agreement dated April 18, 2018, with the following Market Maker, duly registered with NSE Emerge to fulfil the obligations of Market Making.

Pantomath Stock Brokers Private Limited

108, Madhava Premises,
Behind Family Court, Bandra Kurla Complex,
Bandra (East), Mumbai 400051,
Maharashtra, India

Tel: 022 42577000

Fax: 022 26598692

Email: broking@pantomathgroup.com

Website: www.pantomathbroking.com

Contact Person: Mahavir Toshnival

SEBI Registration No.: INZ000068338

Pantomath Stock Brokers Private Limited, registered with EMERGE platform of NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and the buy quote) shall not be more than 10% or as specified by the stock exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of 60/- the minimum lot size is 2,000 Equity Shares thus minimum depth of the quote shall be Rs. 1,20,000/- until the same, would be revised by NSE.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including upto 98,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.

6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Pantomath Stock Brokers Private Limited is acting as the sole Market Maker.
7. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:
 - i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.
 - iii. Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading.
8. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on Emerge Platform of National Stock Exchange of India Limited and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
9. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
10. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

11. NSE Emerge Exchange will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
12. NSE Emerge Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

13. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crore to Rs. 50 crore	20%	19%
Rs. 50 to Rs. 80 crore	15%	14%
Above Rs. 80 crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / NSE from time to time.

The Equity Shares that are being locked-in are eligible for computation of Promoter's Contribution under Regulation 33 of the SEBI ICDR Regulations. In this connection, as per Regulation 33 of the SEBI ICDR Regulations, our Company confirms that the Equity Shares locked-in do not consist of:

- a) The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Draft Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- b) The minimum Promoters' contribution does not include Equity Shares acquired during the one

- year preceding the date of this Draft Prospectus at a price lower than the Issue Price;
- c) No equity shares have been issued to our promoter upon conversion of a partnership firm during the preceding one year at a price less than the issue price.
 - d) No equity shares held by the Promoters and offered for minimum Promoters' contribution are subject to any pledge;
 - e) All the Equity Shares of our Company held by the Promoter and Promoter Group are in the process of being dematerialized; and
 - f) The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoters' contribution subject to lock-in.

The minimum Promoters' Contribution has been brought in to the extent of, not less than the specified minimum lot and from the persons defined as "Promoters" under the SEBI ICDR Regulations.

iii. Details of share capital locked in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

iv. Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI ICDR Regulations has ended, subject to compliance with the SEBI Takeover Regulations, as applicable.

We further confirm that our Promoters' Contribution of 20.90% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

APPRAISAL BY APPRAISING AGENCY

ANA & Associates has conducted a Techno Economic Viability Report (Appraisal Report) dated May 02, 2018 in respect of the proposed setting up of Dyestuff Pigment and Intermediates manufacturing facility at Saykha GIDC Bharuch.

The fund requirements mentioned above except for setting up of Dyestuff Pigment and Intermediates manufacturing facility is based on the internal management estimates of our Company and have not been verified by the Lead Managers or appraised by any bank, financial institution or any other external agency. The fund requirements for setting up of Dyestuff Pigment and Intermediates manufacturing facility is based on the Appraisal Report of ANA & Associates. The fund requirements are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations. The actual costs would depend upon the negotiated prices with the

suppliers/contractors and may vary from the above estimates. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilising our internal accruals or seeking debt financing.

Details of the Object

The details of the objects of the Issue are set out below.

1. To finance setting up of Dyestuff Pigment and Intermediates manufacturing facility at GIDC Saykha Industrial Estate, Bharuch

No second-hand machinery or material is proposed to be purchased out of the aforesaid objects. The abovementioned Plant & Machinery is proposed to be acquired in a ready-to use condition.

We have not entered into any definitive agreements with the suppliers and there can be no assurance that the same suppliers would be engaged to eventually set-up the Dyestuff Pigment and Intermediates facility at the same costs. The cost of Dyestuff Pigment and Intermediates manufacturing unit is based on the estimates of our management.

Our Promoters, Directors, Key Management Personnel or Group Entities have no interest in the proposed procurements, as stated above.

Proposed Schedule of Implementation:

Activities	Commencement	Estimated Completion Date
Acquisition of land	Already acquired	
Dyestuff Pigment and Intermediates Plant	October' 18	September' 19
Commercial production	September' 19	Onwards

Land:

The Company has already acquired three plots of land namely C-18, C-37 and DP 80-81-82-83 at GIDC Saykha Industrial Estate, Gujarat. The total area of these plots of land is approximately 75,000 square

meters. The Dyestuff Pigment and Intermediates unit of our Company is proposed to be commissioned on Plot C-18, which is having an estimated total area of 33,560 square meters.

Power:

The power requirement for Phase I is 1 MW which will be supplied by DAKSHIN GUJARAT VIDHYUT COMPANY LTD (DGVCL).

Water:

Water requirement for Phase I will be sourced from GIDC Saykha. The quantity and quality of water available at unit locations is adequate and good for production of Dyestuff/Pigments/Intermediates.

2. Repayment/pre-payment of certain Secured borrowings availed by our Company

Our Company has availed secured loan from various banks and financial institutions for funding the GIDC and Kalupur Bank Co-operative Bank. These loans were taken for capital expenditure and meeting working capital requirements of the Company. As on May 02, 2018, with respect to the loans proposed to be repaid from Net Proceeds of the Issue, our Company had outstanding indebtedness from concerned entities amounting to Rs. 644.00 lakhs as certified by the ANA & Associates, Chartered Accountants. We believe that such repayment will help reduce our outstanding indebtedness and improve our debt-equity ratio. We believe that reducing our indebtedness will result in enhanced equity base, reduce our financial costs, improve our profitability and improve our leverage capacity.

The details of the repayment of loans are provided below:

(Rs. In lakhs)

Name of Lender	Amount Outstanding as on May 02, 2018	Rate Of Interest	Security	Tenure	Purpose/ Utilisation	Repayment from the Net Proceeds of the Issue
The Kalupur Commercial Co-Operative Bank Limited	230.00	9.50%	Plot of land at 88/6/7/8, GIDC Phase I, Vatva, Ahmedabad-382445, Gujarat, India	60 months	Expansion of Business	230.00
Gujarat Industrial Development Corporation	414.00	12.50%	Plot of land at C-80, 81, 82 Dahej GID C	For first 2 years only interest is payable in 8 quarterly instalments. Capital is payable in 32 equal quarterly instalment	Expansion of Business	350.00
Total	644.00	-	-	-	-	580.00

We may repay the above loans, before we obtain proceeds from the Issue, through other means and source of financing, including bridge loan or other financial arrangements, which then will be repaid from the proceeds of the Issue.

3. General Corporate Purpose

The Net Proceeds will be first utilized towards the Objects as mentioned as mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the Net Proceeds, in compliance with the SEBI ICDR Regulations. Our Company intends to deploy the balance Net Proceeds, if any, for general corporate purposes, subject to above mentioned limit, as may be approved by our management, including but not restricted to, the following:

1. strategic initiatives
2. brand building and strengthening of marketing activities; and
3. On-going general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “General Corporate Purposes” and the business requirements of our Company, from time to time. We, in accordance with the policies of our Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

ISSUE RELATED EXPENSES

The total expenses of the Issue are estimated to be approximately Rs 50.00 lakhs. The expenses of this include, among others, underwriting and management fees, printing and distribution expenses, advertisement expenses, legal fees and listing fees. The estimated Issue expenses are as follows:

Expenses	Expenses (Rs. in Lakhs)*	Expenses (% of total Issue expenses)	Expenses (% of Gross Issue Proceeds)
Payment to Merchant Banker including expenses towards printing, advertising, and payment to other intermediaries such as Registrars, Bankers etc.	25.00	50%	2.17%
Regulatory fees	5.00	10%	0.43%
Marketing and Other Expenses	20.00	40%	1.73%
Total estimated Issue expenses	50.00	100%	4.33%

**As on April 30, 2018 our Company has incurred Rs. 17.80 Lakhs towards Issue Expenses out of internal accruals.*

SCSBs will be entitled to a processing fee of Rs. 10/- per Application Form for processing of the Application Forms procured by other Application Collecting Intermediary and submitted to them on successful allotment.

Selling commission payable to Registered broker, SCSBs, RTAs, CDPs, on the portion for RIIs and NIIs, would be payable as follows:

Portion for RIIs	0.25% (exclusive of Goods and Service Tax)
Portion for NIIs	0.15% (exclusive of Goods and Service Tax)

The commissions and processing fees shall be payable within 30 working days post the date of receipt of final invoices of the respective intermediaries.

Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

BRIDGE FINANCING

We have not entered into any bridge finance arrangements that will be repaid from the Net Issue Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit facility with our lenders, to finance setting up of additional manufacturing facility requirements until the completion of the Issue. Any amount that is drawn down from the overdraft arrangement / cash credit facility during this period to finance setting up of additional manufacturing facility requirements will be repaid from the Net Proceeds of the Issue.

INTERIM USE OF FUNDS

Pending utilization of the Issue Proceeds for the Objects of the Issue described above, our Company shall deposit the funds only in Scheduled Commercial Banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilisation of the proceeds of the Issue as described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

MONITORING UTILIZATION OF FUNDS

There is no requirement for the appointment of a monitoring agency, as the Issue size is less than Rs. 10,000 Lakhs. Our Board will monitor the utilization of the proceeds of the Issue and will disclose the utilization of the Net Proceeds under a separate head in our balance sheet along with the relevant details, for all such amounts that have not been utilized. Our Company will indicate investments, if any, of unutilized Net Proceeds in the balance sheet of our Company for the relevant Fiscal subsequent to receipt of listing and trading approvals from the Stock Exchanges.

Pursuant to Regulation 32(5) of the Listing Regulations, our Company shall disclose to the Audit Committee the uses and applications of the Net Proceeds. Our Company shall prepare an annual statement of funds utilized for purposes other than those stated in this Draft Prospectus, certified by the statutory auditors of our Company and place it before the Audit Committee, as required under applicable laws. Such disclosure shall be made only until such time that all the Net Proceeds have been utilized in full. Furthermore, in accordance with the Regulation 32(1) of the Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the utilization of the proceeds of the Issue from the objects of the Issue as stated above; and (ii) details of category wise variations in the utilization of the proceeds from the Issue from the objects of the Issue as states above. This information will also be published in newspapers simultaneously with the interim or annual financial results, after placing the same before the Audit Committee.

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorised to do so by the Shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS

No part of the proceeds of the Issue will be paid by us to the Promoters and Promoter Group, the Directors, Associates, Key Management Personnel or Group Companies except in the normal course of business and in compliance with the applicable law.

BASIS FOR ISSUE PRICE

The Issue Price has been determined by our Company in consultation with the Lead Manager, on the basis of an assessment of quantitative and qualitative factors as described below. The face value of the Equity Shares is Rs. 10 each and the Issue Price is Rs. 60 per Equity Share and is 6 times the face value. Investors should also refer sections titled “*Risk Factors*”, “*Financial Statements*” and chapter titled “*Our Business*” beginning on pages 19, 183 and 129 respectively of this Draft Prospectus, to have an informed view before making an investment decision. The trading price of the Equity Shares of our Company could decline due to risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computing the price, are:

- Focus on quality and innovation;

- Wide range of products;
- Locational Advantage;
- Cost reduction initiatives; and
- Well established relationship with clients.

For further details, refer to heading “*Our Competitive Strengths*” under chapter titled “*Our Business*” beginning on page 129 of this Draft Prospectus.

QUANTITATIVE FACTORS

The information presented below is based on the restated financial statements of the Company for the Financial Years ended March 31, 2017, 2016 and 2015 and for the period ended December 31, 2017, prepared in accordance with Indian GAAP. Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per Share (EPS) as per Accounting Standard 20 as adjusted for changes in capital

Year/ Period Ended	EPS (Rs.)	Weight
March 31, 2017	2.38	3
March 31, 2016	0.49	2
March 31, 2015	0.53	1
Weighted Average		1.44
December 31, 2017*		3.40

*Not Annualized

Notes:

- The earnings per share has been computed by dividing net profit as restated, attributable to equity shareholders by restated weighted average number of equity shares outstanding during the period / year. Restated weighted average number of equity shares has been computed as per AS-20. The face value of each Equity Share is Rs. 10/-. Basic EPS is Net profit attributable to equity shareholders divided by weighted average number of equity shares outstanding during the year/ period.
- On March 16, 2018, our Company issued 48,87,000 equity shares to the existing shareholders as fully paid Bonus Shares in the ratio of 10:1. For calculating the EPS above, these bonus shares have been taken into account for calculating the weighted average number of equity shares. For further details, see the section “*Capital Structure*” on page 78 of this Draft Prospectus.

2. Price to Earnings (P/E) ratio in relation to Issue Price of Rs. 60 per Equity Share of Rs. 10 each fully paid up

Particulars	P/E Ratio
P/E ratio based on Basic EPS for FY 2016-17	25.21
P/E ratio based on Weighted Average EPS	41.62
*Industry P/E	
Highest	68.73
Lowest	30.69
Average	48.01

**Industry Composite comprises of Meghmani Organics Limited, Yash Chemex Limited and Mahickra Chemicals Limited.*

3. Return on Net worth (RoNW)

Return on Net Worth (“RoNW”) as per restated financial statements

Year/ Period Ended	RoNW (%)	Weight
March 31, 2017	19.54	3
March 31, 2016	4.99	2
March 31, 2015	5.68	1
Weighted average		12.38%
December 31, 2017 (%)*		21.88%

**Not annualized*

Note: RoNW has been computed by dividing net profit after tax as restated, by Net Worth as at the end of the year/ period. Net worth has been computed as the aggregate of share capital and reserves and surplus (excluding revaluation reserves, if any) of our Company.

4. Minimum Return on Total Net Worth post Issue needed to maintain Pre-Issue EPS for the year ended March 31, 2017 is 9.61%

5. Net Asset Value (NAV)

NAV per Equity Share	Amount (in Rs.)
Net Asset Value per Equity Share as of March 31, 2017	12.16
Net Asset Value per Equity Share as of December 31, 2017	15.56
Net Asset Value per Equity Share after the Issue	27.28
Issue Price per equity share	60.00

Notes:

- Net Asset Value per Equity Share has been calculated as net worth divided by number of equity shares at the end of the year/period. Net worth has been computed as the aggregate of share capital and reserves and surplus (excluding revaluation reserves, if any) of our Company.
- On March 16, 2018, our Company issued 48,87,000 equity shares to the existing shareholders as fully paid Bonus Shares in the ratio of 10:1. For calculating the NAV above, these bonus shares have been taken into account for calculating the number of equity shares at the end of the year/period. For further details, see the section “Capital Structure” on page 78 of this Draft Prospectus.

INTRODUCTION TO DYE CHEMICAL INDUSTRY

Basic dye chemicals and their related products (petrochemicals, fertilisers, paints, varnishes, glass, perfumes, toiletries, pharmaceuticals, etc.) constitute a significant part of the Indian economy. Among the most diversified industrial sectors, chemicals cover an array of more than 70,000 commercial products. In April-June 2017, total Foreign Direct Investments (FDI) in chemicals (excluding fertilisers) stood at US\$ 679 million whereas cumulative FDI till June 2017 from April 2000 was US\$ 13.972 billion. India is the sixth largest producer of chemicals globally and third largest producer in Asia in terms of output. The country ranks third globally in the production of agro chemicals and contributes around 16 per cent to the global dyestuff and dye intermediates production.

Key Markets and Export Destinations

Total exports of dyes and dye intermediates, organic and inorganic chemicals, including agro chemicals, cosmetics and toiletries, essential oils, incense sticks and castor oil, stood at US\$ 12.15 billion during the year 2016-17. The US, the UAE, the UK, Bangladesh and Saudi Arabia are the leading importers of cosmetics, toiletries and essential oils. In the year 2016-17, exports of dyes and dye intermediaries increased 2.94 per cent year-on-year to US\$ 2.11 billion. During the period, exports of essential oils, cosmetics and toiletries increased 6.84 per cent to US\$ 15.72 billion and exports of castor oil stood at US\$ 676.43 million. Exports of inorganic, organic and agro chemicals stood at US\$ 7.78 billion, an increase of 4.46 per cent year-on-year.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China's unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.

- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OVERVIEW OF INDIA'S ECONOMIC PERFORMANCE IN 2017-18

Economic activity

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 17) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering (Figures 19 and 20).

(Seasonally adjusted, in thousands)

Figure 20. Sale of Passenger Cars

Perhaps most significantly, the behaviour of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding (Figure 21).

On demonetization specifically, the cash-to-GDP ratio has stabilized, suggesting a return to equilibrium. The evidence is that since about June 2017 the trend in currency is identical to that pre-demonetization (Figure 22). The stabilization also permits estimation of the impact of demonetization: about Rs. 2.8 lakh Crores less cash (1.8 percent of GDP) and about Rs. 3.8 lakh Crores less high denomination notes (2.5 percent of GDP).

A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers. Meanwhile, overall revenue expenditure growth by the central and state governments remains strong at 11.7 percent (April to November). Cyclical conditions may also lead to lower tax and non-tax revenues, which act as an automatic stabilizer.

All this said, while the direction of the indicators is positive, their level remains below potential. IIP growth (April-November 2017 over same period in the previous year) is 3.2 percent, real credit growth to industry is still in negative territory, and the growth in world trade remains less than half its level of a decade ago. Moreover, even though the cost of equity has fallen to low levels, corporates have not raised commensurate amounts of capital, suggesting that their investment plans remain modest (Box 6). In other words, the twin engines that propelled the economy's take-off in the mid-2000s – exports and investment – are continuing to run below take-off speed.

Meanwhile, developments in the agriculture sector bear monitoring. The trend acceleration in rural wages (agriculture and non-agriculture), which had occurred through much of 2016 because of increased activity on the back of a strong monsoon, seems to have decelerated beginning just before the kharif season of 2017-18 (Figure 23) but it is still greater than much of the last three years. Three crop-specific developments are evident. Sowing has been lower in both kharif and rabi, reducing the demand for labor. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farmgate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO-forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter.

Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI's forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO's forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO's 9.5 percent estimate.

Macroeconomic indicators

After 13 months of continuously under-shooting the inflation target by an average of 130 basis points, headline inflation for the first time crossed the RBI's 4 percent target in November, posting a rate of 5.2 percent in December 2017 (Figure 24). The recent upswing in inflation stems from rising global oil prices (not all of which has been passed on to consumers), unseasonal increases in the prices of fruits and vegetables, and the 7th Pay Commission housing rent allowances, which mechanically increase inflation. Stripped of all these factors, underlying inflation has been increasing at a more modest pace, reaching 4.3 percent at end-December—in part because firms are passing the incidence of GST on to final consumers only gradually.

The current account deficit has also widened in 2017-18 and is expected to average about 1.5-2 percent of GDP for the year as a whole. The current account deficit can be split into a manufacturing trade deficit, an oil and gold deficit, a services deficit, and a remittances deficit (Figure 25). In the first half of 2017-18, the oil and gold balance has improved (smaller deficit of \$47 billion) but this has been offset by a higher trade deficit (\$18 billion) and a reduced services surplus (\$37 billion), the latter two reflecting a deterioration in the economy's competitiveness.

Despite these developments, the overall external position remains solid. The current account deficit is well below the 3 percent of GDP threshold beyond which vulnerability emerges. Meanwhile, foreign exchange reserves have reached a record level of about \$432 billion (spot and forward) at end-December 2017, well above prudent norms.

Fiscal developments

Bond yields have increased sharply (Figure 26) since August 2017, reflecting a variety of factors, including concerns that the fiscal deficit might be greater-than-budgeted, expectations of higher inflation, a rebound in activity that would narrow the output gap, and expectations of rate increases in the US. As a result, the yield curve has become unusually steep (Figure 27).

The fiscal deficit for the first eight months of 2017-18 reached 112 percent of the total for the year, far above the 89 percent norm (average of last 5 years), largely because of a shortfall in non-tax revenue, reflecting reduced dividends from government agencies and enterprises. Expenditure also progressed at a fast pace, reflecting the advancing of the budget cycle by a month which gave considerable leeway to the spending agencies to plan in advance and start implementation early in the financial year. Partially offsetting these trends will be disinvestment receipts which are likely to exceed budget targets.

GST revenue collections are surprisingly robust given that these are early days of such a disruptive change (See Box 7). Government measures to curb black money and encourage tax formalization, including demonetization and the GST, have increased personal income tax collections substantially (excluding the securities transactions tax). From about 2 percent of GDP between 2013-14 and 2015-16, they are likely to rise to 2.3 percent of GDP in 2017-18, a historic high. Precise estimates of the government's contribution to this improvement vary depending on the methodology used. An econometric exercise yields an estimate of Rs. 40,000 Crores over the two fiscal years of 2016-17 and 2017-18.3 Another based on comparing the difference in actual tax buoyancy in 2016-17 and 2017-18 over the previous seven-years' average buoyancy, yields an estimate of about Rs. 65,000 Crores (both exclude the 25,000 Crores collected under the Income Disclosure Scheme and Pradhan Mantri Garib Kalyan Yojana). Thus, the sum of all government efforts increased income tax collections, thus far, between Rs. 65,000 and Rs. 90,000 Crores. These numbers imply a substantial increase in reported incomes (and hence in formalization) of about 1.5 percent to 2.3 percent of GDP.

As a result of the budget overruns, the central government's fiscal deficit until November 2017 was Rs. 6.1 lakh crore compared to the budgeted Rs. 5.5 lakh crore. In contrast, state governments seem to be hewing closely to their targeted fiscal consolidation – in part because the centre has guaranteed them a large increase in their indirect tax take, as part of the GST agreement.

Reflecting largely fiscal developments at the centre, a pause in general government fiscal consolidation relative to 2016-17 cannot be ruled out. In addition, the measured deficit for 2017-18 will include Rs. 80,000 crore (0.5 percent of GDP) in capital provided to public sector banks. But this will not affect aggregate demand, as reflected in international accounting practice which deems such operations as financing (“below-the-line”) rather than expenditure.

In the case of borrowing by the states, markets have perhaps inadequately taken into account the fact that higher market borrowings by them does not reflect higher deficits; rather about Rs. 50,000 crore or 0.3 percent of GDP of market borrowings is due to changes in the composition of financing, away from higher cost NSSF borrowings toward lower cost market borrowings. This lack of strict correspondence between the deficit and borrowings at the central and state levels (Figure 28) is discussed in greater detail in Box 8. For general

government, about Rs. 40,000 Crores represents greater market borrowings that is not due to deficits—a fact which markets apparently have not internalized.

Another factor contributing to the rise in bond yields has been stepped-up Open Market Operations (OMO) by the RBI. This amounted to a net sale of about Rs. 90,000 Crores during April-December 2017-18 (compared to a net redemption of Rs. 1.1 lakh Crores during the same period in 2016-17) to sterilize the impact of foreign flows, themselves induced by high interest rates.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent.

Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up, and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices requires tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Another key determinant of growth will be the implementation of the IBC process. Here timeliness in resolution and acceptance of the IBC solutions must be a priority to kick-start private investment. The greater the delays in the early cases, the greater the risk that uncertainty will soon shroud the entire IBC process. It is also possible that expeditious resolution may require the government to provide more resources to PSBs, especially if the haircuts required are greater than previously expected, the ongoing process of asset quality recognition uncovers more stressed assets, and if new accounting standards are implemented.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. (Box 9 suggests that India's stock price surge is different from that in other countries but does not warrant sanguine-ness about its sustainability.) Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to

respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions.

Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

GLOBAL MANUFACTURING SECTOR

World manufacturing growth

World manufacturing growth accelerated in the third quarter of 2017, as economic recovery strengthened worldwide. Positive results re-ported in the First half of this year carried over into the third quarter. Steady progress over several consecutive quarters characterizes both industrialized and developing and emerging industrial economies, and prospects for sustained global industrial growth in forthcoming periods are good (Figure 1). For the first time in several years, industrial growth moved back to the positive zone in all of the major economies.

The driving forces behind the positive developments in global manufacturing were improving business conditions, rising consumer spending, promising investment plans directed towards developing economies and healthy external demand support activities. On the other hand, risks for global growth such as concerns where Brexit negotiations will lead to, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated.

Global manufacturing output rose by 4.5 per cent in the third quarter of 2017 compared to the same period of the previous year. This impressive gain was based on an already strong growth throughout the first half of 2017. The disaggregated data points to the thriving performance of major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, the Republic of Korea, Italy as well as Brazil. The manufacturing output of China, the world's largest manufacturer, continued to register a high growth rate in the third quarter.

Industrialized economies as a whole exhibited record-breaking growth at 3.1 per cent in the third quarter of 2017 - the highest manufacturing output growth in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe's dynamic recovery, where a 4.0 per cent growth was achieved. East Asian industrialized economies experienced a healthy 4.5 per cent year-by-year upward trend and the nearly two-year consecutive slump has all but been forgotten. Relative lower growth was observed in the North America region, where manufacturing output expanded by a mere 1.4 per cent.

A reversal of negative trends in Argentina and Brazil has had a considerable impact on recovery in the Latin America region. Manufacturing output of the region rose by 2.5 per cent in the third quarter of 2017, which also resulted in an accelerated growth rate of developing and emerging industrial economies as a whole at 6.2 per cent. A relatively higher increase was achieved by Asia's developing economies with a 6.5 per cent expansion recorded in the third quarter on a year-to-year basis. The manufacturing production of African regions remained in the positive zone of high growth despite the weak foundation of these countries' manufacturing industries. According to UNIDO's latest estimates, African manufacturing experienced a 6.4 per cent year-to-year gain in the third quarter of 2017.

Entering the second half of the year 2017, recovery in global manufacturing has evolved from being relatively modest to becoming more dynamic. Improvements were recorded in both industrialized economies and developing and emerging industrial economies.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Industrialized economies

The manufacturing output of industrialized economies has followed a progressively improving upward trend over the last quarters. All industrialized regions, namely Europe, North America and East Asia, were characterized by robust dynamics in the third quarter and took a step towards a steady future.

The latest data revealed an acceleration of growth in the manufacturing sector of European economies during the third quarter of 2017 in a year-by-year comparison, beating expectations. Improved business and consumer confidence complemented by strong domestic and external demand resulted in new business and export orders. All of these factors provide tremendous opportunities to investors and signal that Europe's manufacturing sector is gradually stabilizing.

Taking a closer look at specific numbers, Europe's manufacturing sector as a whole stepped up production by 4.0 per cent in the third quarter of 2017, while the growth rate in the eurozone countries increased by 3.9 per cent compared to the same period of the previous year. In both cases, the result meant a 1.0 per cent jump from the previous quarter's results.

The major economies of the Eurozone recorded strong growth in the third quarter of 2017. Manufacturing output rose by 4.6 per cent in Germany, 3.8 per cent in Italy and 2.8 per cent in France comparing year-to-year developments. Spain, another leading Eurozone economy, achieved a 3.3 per cent growth rate. The manufacturing output of other economies of the single currency block seemingly remained healthy in the third quarter and continued on the trajectory of continuous improvement. The highest growth of over 8.0 per cent was observed in Slovenia and Lithuania. Among other economies, manufacturing output grew by 5.8 per cent in Austria, 4.7 per cent in Belgium, 5.2 per cent in Portugal and 3.8 per cent in Slovakia.

Among individual economies beyond the euro zone, the Swiss manufacturing sector experienced the strongest increase in the last 10 years and expanded sharply by 8.7 per cent compared to the same period of the previous year. The rapid surge from an upwardly revised 3.3 per cent gain in the previous quarter was primarily boosted by the manufacturing of pharmaceuticals and of computer, electronic and optical products. The manufacturing output in the United Kingdom rose by 2.7 per cent compared to the same period of the previous year. Another exceptionally positive result was observed in Sweden with a 5.8 per cent growth rate. Higher growth rates above 5.0 per cent were also observed in Czechia and Hungary.

North America's overall manufacturing growth was lower than in other industrialized regions at 1.4 per cent. The United States' manufacturers have recently picked up as the dollar dropped in value, making U.S. goods cheaper in foreign markets and boosting exports. However, a 1.2 per cent growth in the U.S.' total manufacturing production in the third quarter of 2017 represents a slight slowdown, given the performance of the U.S.' manufacturing sector in the second quarter. A solid performance was witnessed in Canadian manufacturing, where production expanded by 3.2 per cent.

Strong global growth continued to drive manufacturing activity in industrialized East Asian economies during the third quarter, leading the manufacturing production to expand by 4.5 per cent. Japan's manufacturing output

rose by 4.7 per cent compared to the same period of the previous year. Despite the slightly lower figure in the third quarter, Japan has maintained an uninterrupted period of high growth for several consecutive quarters. Growth momentum strengthened in Malaysia, where manufacturing output recorded a 7.0 per cent increase in the third quarter of 2017. A particularly strong two-digit growth rate was observed in Singapore, while the Republic of Korea and Taiwan, Province of China's manufacturing production expanded only moderately by 1.4 per and 3.3 per cent, respectively. The manufacturing recovery in Russia remained largely on track in the third quarter of 2017, with a nearly 1.0 per cent expansion recorded on a year-to-year basis. A similar growth rate was also observed in Norway which further reduced its contraction rate.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Developing and Emerging Industrial Economies

The combination of good results in all developing and emerging industrial regions helped the developing and emerging industrial economies as a whole achieve a 6.2 per cent growth in the third quarter of 2017 (Figure 3). The recovery of Latin America continues unabated, the growth momentum is also largely holding up across the Asian economies and production in Africa is further promoting from boosted investor confidence.

Manufacturing activity in China has stabilized at the same pace of growth since the beginning of 2017 - a 7.3 per cent increase on a year-by-year basis. The development of advanced manufacturing industries and the new investment plan in the environment has led to an overall upgrade of China's manufacturing industry.

Latin America has made positive developments in the manufacturing sector, following the resumption of growth in the second quarter. Brazilian manufacturers are finally emerging from the deep recession with an upward trend of 2.8 per cent recorded in the third quarter of 2017. The largest expansion was observed in the manufacturing of motor vehicles, trailers and semi-trailers. Meanwhile, Argentina has overcome a severe decline in economic growth with the country's manufacturing activity recording a growth of 4.4 per cent – its best performance over the last six years. Looking at other countries in the region, Mexico's manufacturing production retained a positive increase of nearly 3.5 per cent, Chile recorded a moderate upturn of 1.5 per cent, while manufacturing output in Peru and Ecuador decreased in comparison to the same period of 2016.

An impressive growth rate was observed in Asia and the Pacific region. Viet Nam, one of Asia's fast growing economies, continued to attract sizeable foreign direct investment in-ows. Its manufacturing sector was supported by strong demand for electronics and retained a solid pace in the third quarter, expanding by 12.8 per cent. However, the long-term trajectory of double-digit year-to-year growth in manufacturing was interrupted at the beginning of 2017 due to weakened exports. A positive development in growth was also observed in Indonesia, where manufacturing production accelerated and registered a 5.5 per cent gain in the third quarter of 2017. Similarly, the slowed performance of India's manufacturing sector in the last quarter improved slightly, with a moderate 2.2 per cent increase. In Thailand, manufacturing output rose by 4.2 per cent, which was mainly supported by a higher output of the automotive industry. As regards the manufacturing output of other economies from the region, Pakistan and Mongolia performed well, but the Philippines and Jordan's manufacturing sector contracted in a year-by-year comparison.

Among Africa's economies, South Africa, the region's most industrialized country, has been performing below its potential since the final quarter of 2016 and has entered a recession. Following three quarters of depressed manufacturing production in a row, South Africa's manufacturing sector showed marginal positive growth in the third quarter of 2017. However, its current growth is still too weak to project whether the recession will be overcome by the end of the year. Similarly, Tunisia's manufacturing output rose by 2.4 per cent following a period of contraction. A positive growth rate was also registered in Egypt and Morocco, while Senegal and Nigeria's manufacturing output fell compared to the same period of the previous year. However, it should be noted that estimates for Africa are based on limited data, revealing high instability and volatility.

Among other developing economies, the manufacturing output of Eastern European countries registered relatively higher growth rates in the third quarter of 2017. Manufacturing output rose by 8.2 per cent in Poland, 4.7 per cent in Belarus, 5.8 per cent in Bulgaria, 8.5 per cent in Serbia and over 9.0 per cent in Romania, Latvia and Bosnia and Herzegovina. Turkey's manufacturing sector also performed well and exceeded 10.0 per cent growth rate.

Key Findings - Global manufacturing Sector

Global manufacturing production maintained a positive growth rate in all industries in the third quarter of 2017. Advanced manufacturing such as automation, robotics and digital products have been experiencing a steady expansion at the global level. Shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term and, moreover, determines the positioning of economies within the global market. Therefore, the competition between advanced and emerging economies in high-tech leadership will be compelling and crucial for both groups. In the wake of the fourth industrial revolution, embracing emerging technologies brings global manufacturing production to a new level. The high growth rate in medium high and high technology industries observed in the third quarter of 2017 led to an increase in high value goods, indicating a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach.

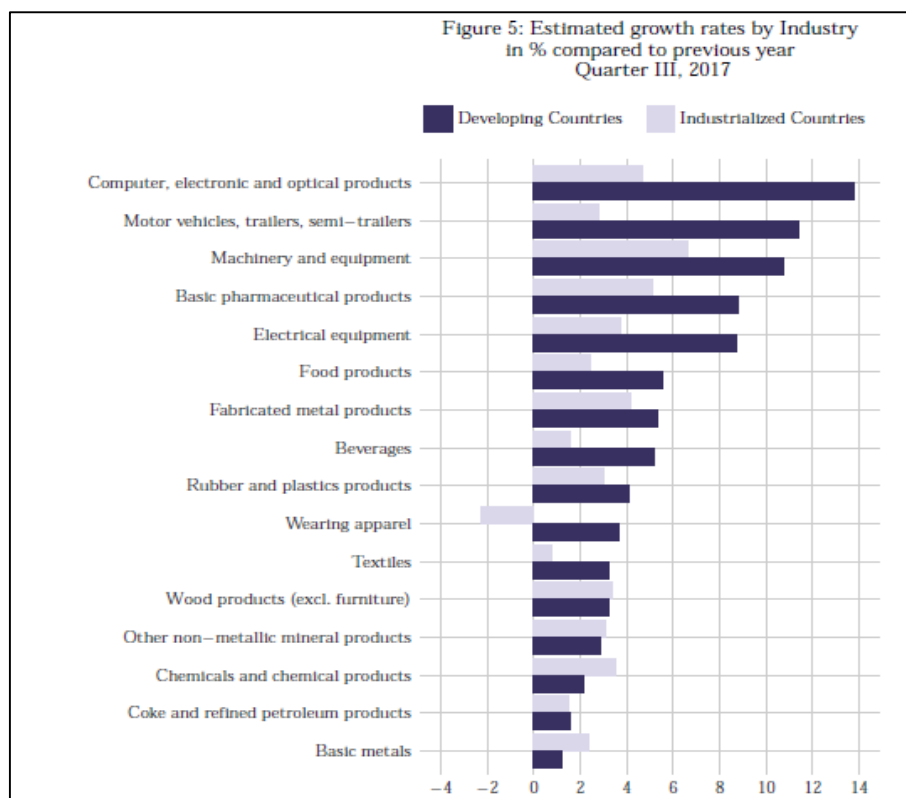

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Medium high and high technology manufacturing industries have repeatedly held top positions when looking at year-by-year comparisons - these industries witnessed a 6.0 per cent growth rate, a record-breaking result in the last five years. When reviewing the individual top industries, the manufacturing of computers, electronics and optical products grew by 8.3 per cent, the production of machinery and equipment rose by 8.0 per cent, the manufacturing of pharmaceutical products by 6.7 per cent (which recorded a visibly accelerated growth rate compared to the results of the previous quarter), the production of electrical equipment by 6.1 per cent and the manufacturing of motor vehicles by 5.9 per cent. The production in all of the above- mentioned economies was dominated by developing and emerging industrial economies compared with industrialized economies (Figure 5).

As regards medium technology manufacturing industries, 2.3 per cent growth was registered worldwide in the third quarter of 2017. The global manufacturing of rubber and plastic products increased by 3.4 per cent in a year-by-year comparison, while the manufacturing of non-metallic mineral products recorded a growth rate of 3.0 per cent. The global manufacturing of basic metals rose at a moderate pace of 1.6 per cent.

In low technology manufacturing industries, overall global production rose by 3.3 per cent in the third quarter of 2017 compared to the same period of the previous year. The global manufacturing of fabricated metal products grew by 4.6 per cent, followed by the manufacturing of furniture with a 4.3 per cent increase. Relatively high growth rates were maintained worldwide in the production of basic consumer goods - the global manufacturing of food products rose by 3.8 per cent, beverages by 3.4 per cent and the global manufacturing of both textile and wearing apparel increased by slightly over 2.5 per cent. The growth rate of the manufacturing of paper products expanded by 2.4 per cent, while coke and refined petroleum products and printing remained below 2.0 per cent.

The growth rates for selected industries are presented below. Additional statistics on the growth rates in the third quarter of 2017 are available in the Statistical Tables.

MANUFACTURING SECTOR IN INDIA

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Market Size

The Gross Value Added (GVA) at basic current prices from the manufacturing sector in India grew at a CAGR of 4.34 per cent during FY12 and FY18 as per the second advance estimates of annual national income published by the Government of India. Quarterly GVA at basic prices from manufacturing sector grew by 10.92 per cent in the third quarter of FY18. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 73.70 billion during April 2000-December 2017. India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Mahindra and Mahindra is planning to start operating a fleet of electric cabs and supplying parts to Electric Vehicle (EV) manufacturers.

- Grasim Industries has received clearance for expansion of its plant at Vilayat. The expansion will entail an investment of Rs 2,560 crore (US\$ 396.8 million)
- Over 350 mobile charger factories are expected to be set up in India by 2025, on the back of the government's push to encourage production of battery chargers. Setting up of these factories is expected to lead to production of 1.46 billion chargers and generation of 0.8 million jobs.
- Government of India is planning to invite bids for setting up of 20 Gigawatts (GW) of solar power capacity with the objective of boosting domestic manufacturing of solar power equipment.
- JSW Energy has signed a memorandum of understanding (MoU) with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.

Government Initiatives

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- As of March 2018, Government of India is in the process of coming up with a new industrial policy which envisions development of a globally competitive Indian industry.
- The government has introduced two new World Bank assisted projects viz. SANKALP scheme and STRIVE scheme for skill development in the country.
- In Union Budget 2018-19, the Government of India reduced the income tax rate to 25 per cent for all companies having a turnover of up to Rs 250 crore (US\$ 38.75 million).
- Under the Mid-Term Review of Foreign Trade Policy (2015-20), the Government of India increased export incentives available to labour intensive MSME sectors by 2 per cent.
- The Ministry of Electronics and Information Technology is in the process of formulation of a new electronics manufacturing policy. The aim of the new policy will be to create an ecosystem of manufacturing in the country, enable India to become a significant global player in some of these categories.
- Ministry of Home Affairs liberalised Arms Rules to boost 'Make in India' manufacturing policy of the government. The liberalisation of the policy is expected to encourage investment in the manufacturing of arms and ammunition and weapon systems and promote employment generation.
- The Government of India has launched a phased manufacturing programme (PMP) aimed at adding more smartphone components under the Make in India initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The Government of India is in talks with stakeholders to further ease foreign direct investment (FDI) in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Defence, Government of India, approved the "Strategic Partnership" model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.
- The Union Cabinet has approved the Modified Special Incentive Package Scheme (M-SIPS) in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the

country. The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors. With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN CHEMICAL INDUSTRY: OVERVIEW

Introduction

Basic chemicals and their related products (petrochemicals, fertilisers, paints, varnishes, glass, perfumes, toiletries, pharmaceuticals, etc.) constitute a significant part of the Indian economy. Among the most diversified industrial sectors, chemicals cover an array of more than 70,000 commercial products. In April-June 2017, total Foreign Direct Investments (FDI) in chemicals (excluding fertilisers) stood at US\$ 679 million whereas cumulative FDI till June 2017 from April 2000 was US\$ 13.972 billion. India is the sixth largest producer of chemicals globally and third largest producer in Asia in terms of output. The country ranks third globally in the production of agro chemicals and contributes around 16 per cent to the global dyestuff and dye intermediates production.

Key Markets and Export Destinations

Total exports of dyes and dye intermediates, organic and inorganic chemicals, including agro chemicals, cosmetics and toiletries, essential oils, incense sticks and castor oil, stood at US\$ 12.15 billion during the year 2016-17. The US, the UAE, the UK, Bangladesh and Saudi Arabia are the leading importers of cosmetics, toiletries and essential oils. In the year 2016-17, exports of dyes and dye intermediaries increased 2.94 per cent year-on-year to US\$ 2.11 billion. During the period, exports of essential oils, cosmetics and toiletries increased 6.84 per cent to US\$ 15.72 billion and exports of castor oil stood at US\$ 676.43 million. Exports of inorganic, organic and agro chemicals stood at US\$ 7.78 billion, an increase of 4.46 per cent year-on-year.

Basic Chemicals, Pharmaceuticals and Cosmetics Export Promotion Council

The promotion of product groups such as dyes and dye intermediates, basic inorganic and organic chemicals, including agro-chemicals, cosmetics, toiletries, essential oils, incense sticks, castor oil and its derivatives, is handled by the Basic Chemicals, Pharmaceuticals and Cosmetics Export Promotion Council, which is popularly known as CHEMEXCIL. The Council organises promotional events and fairs to help exporters identify potential markets abroad and providing publicity and marketing back-up.

Global Dye Supplier - India accounts for approximately 16 per cent of the world production of dyestuff & dye, intermediates, particularly for reactive acid & direct dyes. Chemical exports from India stood at USD13.58 billion for FY 17 (1). Exports in the chemical industry grew from USD22.43 billion in FY13 to USD26.97 billion in FY16, registering a growth of 4.71 per cent.

INDIAN DYES & DYE INTERMEDIATES

India enjoys leading position in the reactive dyes segment (end use in cotton textile segment) with low threat of imports. Demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017. China is the largest producer of dyes intermediates (used for dyes production), disperse dyes (end use in polyester textile segment) and azo dyes. Cheaper imports from China and competition within domestic manufacturers had impacted the profitability of Indian players till FY2013. Nevertheless, structural changes in environmental regulations in China have improved cost competency and sales volume of domestic players while reducing imports of dyes intermediates. Combined total operating income of major players grew by CAGR of 17% during FY2013-FY2017 while PBILDT margins improved significantly from 7.74% during FY2013 to 14.50-16.25%

during FY2014-FY2017. This has also resulted in rationalization of debt levels and strengthened debt coverage indicators for the industry. It is expected that domestic dyes industry shall witness growth of around 8.50% over FY2017-FY2022 mainly driven by growth in exports volume and demand from textile industry.

Consequently, dyes intermediate segment is also expected to witness similar demand growth due to demand from dyes and increase in dyes intermediates exports from India. However, it is expected that overall size of dyes and dyes intermediate industry is expected to remain constant during FY2018 despite growth in volume due to correction in sales prices though it is expected to remain far above FY2013 levels. Profitability though expected to be moderated in FY2018 from peak of 16.25% by 150-200 bps on account of stabilization of sales prices of dyes and intermediates (notwithstanding disruption of production in China) and increase in some of the crude linked raw material prices, it shall continue to remain comfortable in the medium term. Although threat of imports from China continues due to its large capacities, improved capital structure of the major industry players is expected to result in strong resilience for the domestic dyes and dyes intermediate players. Furthermore, increase in effluent handling cost, prices fluctuations of intermediates and implementation of goods and service tax (GST) are expected to provide competitive edge to the organized integrated players over un-organized dyes manufacturers lacking backward integration for intermediates.

UNDERSTANDING DYES AND DYES INTERMEDIATE INDUSTRY

The size of global dyes industry is estimated at USD 5.60 billion as of CY2016 (CY refers to the period January 1 to December 31). The global dyes market has gradually shifted from the countries like Europe, Japan and United States of America to Asian countries predominantly China and India in last two decades on account of the stricter environmental and pollution control norms in the developed countries. China is the largest manufacturer of dyes followed by India. India accounted for approximately 16% (during CY2016) of the world production of dyes and dye intermediates and is a leader in the production and export of reactive dyes while China is the largest player in disperse and azo dyes. Global dyes intermediate capacity is estimated at 17,50,000 metric tonne per annum (MTPA) to 18,00,000 MTPA as of CY2016. In terms of production, China contributes more than 70% share followed by around 17% share of India as of CY2016.

DOMESTIC DYES INDUSTRY

The dyes industry in India is fragmented and unorganized comprising of more than 800 small scale units and 15-20 large sized organized players manufacturing more than 600 different type of dyes. The western state of Gujarat and Maharashtra accounts for more than 90% of the country's production.

The total installed capacity for various dyes in India is estimated at 3,80,000-4,00,000 MTPA as of FY2017 while the domestic production of the dyes is estimated at 2,05,000 MT during FY2017. The domestic installed capacity and the production is largely driven by the reactive dyes, followed by disperse dyes which majorly finds application across various segments of textile industry.

Over the years the end users focus has shifted from highly toxic azo dyes to reactive and disperse dyes resulting into increased contribution of the reactive dyes and disperse dyes in domestic production during FY2012-FY2017. Overall demand driver for domestic dyes in India is textile Industry with 70% consumption of dyes followed by food (8%), leather (6%), Paper (5%) and other industries (11%). India is the major player in the reactive dyes segment with low threat of imports. Hence, demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017.

The export volume of the dyes registered CAGR of 9% for the period FY2012-FY2017 as presented below. In terms of value, the export of dyes has increased from Rs.3,216 crore during FY2012 to Rs.7,535 crore during FY2017 registering healthy CAGR of around 19%. It was on account of healthy volume growth and increase in the average sales realization subsequent to volatility in the prices of dyes intermediates mainly H-acid and Vinyl Sulphone (VS) from FY2014.

The major export destinations of dyes are United States of America (USA), followed by Turkey, Bangladesh, Germany, Italy, Brazil and China. Reactive dyes contributed 52% in total exports volume followed by azo dyes (25%), disperse dyes (6%), basic dyes (4%), acid dyes (2%) and other dyes (11%) during FY2017. Average

sales realization of reactive dyes has increased from around Rs.204 /kg during FY2013 to Rs.335/kg during FY2014 and declined marginally to Rs.312/kg during FY2017. CARE Ratings expects softening of the prices of reactive dyes to around Rs.265-280/kg in the medium term on the back of decline in the prices of dyes intermediates and appreciation of rupee against USD. However, sales prices are expected to remain higher than pre-FY2013 levels.

OUTLOOK FOR DYE AND DYES INTERMEDIATE INDUSTRY

Demand of reactive dyes has grown at healthy CAGR of 8% for the period FY2012-FY2017. CARE Ratings expects domestic dyes industry to witness growth of around 8.50% over FY2017-FY2022 mainly driven by growth in exports volume and demand from textile industry. Key drivers for growth shall be increase in disposable income, higher penetration in the rural market and around 75% share of cotton fabric in total fabric consumption. Implementation of stringent pollution control norms in China is expected to increase India's share in the global dyes and dyes intermediate market from 16% currently to 20% by FY2021. Consequently, dyes intermediate segment is also expected to witness similar demand growth due to demand from dyes and increase in dyes intermediates exports from India. CARE Ratings expects that overall size of dyes and dyes intermediate industry is expected to remain constant during FY2018 despite growth in volume due to correction in sales prices.

On supply front, capacity addition of 23,000-25,000 MTPA is estimated in the dyes segment over FY2018-FY2019. Dyes intermediate segment has higher entry barriers for environmental clearance due to generation of large quantum of effluent and challenges involved in treating the same. Hence, CARE Ratings doesn't envisage major capacity addition in the dyes intermediate segment over next three years except for balancing capacity of VS and H-acid aggregating around 15,000 MTPA for efficient handling of effluent as well as for captive consumption and 4,000-5,000 MTPA for other intermediates. Significant increase in average sales realization of dyes intermediates and dyes had resulted in healthy profitability for industry players.

Profitability though expected to be moderated in FY2018 by 150-200 bps on account of stabilization of sales prices of dyes and intermediates (notwithstanding disruption of production in China) and increase in some of the crude linked raw material prices, it shall continue to remain healthy in the medium term. Furthermore, increase in effluent handling cost, prices fluctuations of intermediates and implementation of goods and service tax (GST) are expected to provide competitive edge to the organized integrated players over un-organized dyes manufacturers lacking backward integration for intermediates.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 18 of this Draft Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Draft Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 19 and 183, respectively.

OVERVIEW OF THE BUSINESS:

Our Company was originally incorporated as ‘Ushanti Colour Chem Private Limited’ under the provisions of Companies Act, 1956 at Gujarat *vide* Certificate of Incorporation issued by Registrar of Companies, Gujarat on May 12, 1993. Consequently, it was converted into a public limited company pursuant to shareholders resolution passed at Extra-ordinary General Meeting of our Company held on February 19, 2018 and the name of our Company was changed to ‘Ushanti Colour Chem Limited’ and a fresh certificate of incorporation consequent upon Conversion of Private Company to Public Limited dated March 07, 2018 was issued by Registrar of Companies, Gujarat, Ahmedabad. The Corporate Identification Number of our Company is U24231GJ1993PLC019444.

Our Company is in the business of manufacturing and trading of Dyestuffs since 1993 The Company manufactures Reactive and Direct Dyestuffs also known as Synthetic Organic Dyes with an integrated production process. The company also manufactures Copper Phthalocyanine, Blue Crude which are one of the major raw materials used for manufacturing of Dyestuffs. The pigment and dyestuffs manufactured by us caters to the raw material requirement of textile, garment, cotton, leather, nylon, paper, wool, ink, wood, plastic and paint industries. We concentrate in manufacturing “Turquoise Blue” Dyestuffs and Pigments. The company has 3 manufacturing facilities situated together at Vatva GIDC in Gujarat. The facilities are spread over 2,739 sq. meters in total area. Our company also has its own Ice generation machinery, further it recovers Ammonium Carbonate from its effluent stream which are reused in the plant as well as sold to the Soda Ash Industry reducing wastage giving us incremental revenue. The company currently has a production capacity of approx. 2,520 tons per annum. The manufacturing facilities are equipped with requisite machineries to keep a constant check on quality. The company is an ISO 9001:2015 certified company certifying the quality of the product our company manufactures.

Our Company manufactures dyes of various concentrations which influences the pricing of the product. We procure quality raw materials from Chemical industries present in Domestic markets who manufactures intermediates of dyestuffs. Our focus on “Turquoise Blue” Dyestuffs has assisted us to be become a niche player in the segment. Our company generates most of its revenue from export operations and has received from Certificate of Recognition as Export House, products of the company are exported to countries like, Turkey, Egypt, Bangladesh, Pakistan, Indonesia, China etc. We have a dedicated Research & Development and Quality Control Team, which looks after the quality of the product we manufacture. Our customers are mostly traders who sell directly to textile manufacturers as well as other industries. Our relationship with our traders and esteemed customer base are key factors of our success in the industry.

Our Company is promoted and managed by Mr. Maunal Gandhi and Mr. Minku Gandhi. With decades of experience in this industry, our promoters along with the team of management are actively involved in the day-to-day affairs of our company’s operations adding valuable knowledge and experience required for sustainable growth.

Our presence in the business for more than 2 decades have aided us to create a brand image coupled with the industry experience we possess, our brand is well received by the market and we aim to continue to further strengthen our brand by supplying qualitative products at competitive prices across the globe.

Our Company's registered office and manufacturing facilities are as below:

Registered Office: 88/8, GIDC Phase I, Vatva, Ahmedabad – 382445, Gujarat, India

Manufacturing facility:

Unit 1 - 88/6, GIDC Phase I, Vatva, Ahmedabad – 382445, Gujarat, India

OUR PROPOSED FACILITY

Our company has acquired a land which is spread over an area of 75,060 sq. meters at Saykha Industrial Estate - Bharuch, Gujarat to set up a new integrated manufacturing facility with an installed capacity of 16,140 tons per annum while permitted capacity being approx. 32,800 tons per annum. This facility at Bharuch is planned to manufacture Dyestuffs as well as intermediates used in manufacturing dyestuffs. Our company intends to commence the operation in this facility by F.Y. 2020-21 in 2 phases.

In 1st phase of expansion, Company is planning to commission Dyestuff Pigment and Intermediates facility which will be funded through Internal accruals and by Net proceeds of this Issue. While in the 2nd Phase, manufacturing facility for CPC Blue Crude, Turquoise Blue Dyestuff Plant and Alpha Blue will be commissioned along with Pigment Green 7.

For further details of the proposed facility, please refer to chapter titled – “*Objects of the Issue*” beginning Page 100 of this Draft Prospectus.

Location of the Project

Plot No: C-18,37, DP-80,81,82,83, Saykha Industrial Estate, Ta: Vagra, Bharuch, Gujarat, India

Plant Capacity

By completing its projects in 2 phases, our Company by FY 2020-21, product wise installed capacity p.a. will be as under:

Product	Installed Capacity (p.a.)
Turquoise Blue Dyestuff	8,100 mt
Copper Phthalocyanine	3,720 mt
VS Plant	1,200 mt
Alpha Blue	1,920 mt
Green 7	1,200 mt

Raw Material

Major Raw material requirement for this facility will be – Aniline, Acetic Acid, Chloro Sulphonic Acid, Acetanilide, Thionyl Chloride, Sulphuric Acid, Cuprous Chloride, Copper Phthalocyanine (CPC), Iso Butyl Alcohol (Solvent B) among others.

Power

The power requirement will be supplied by Dakshin Gujarat Vidhyut Company Ltd (DGVCL). Also with available land bank, the Company would explore other renewable sources of power, like, Solar.

Water

Water will be sourced from GIDC Saykha. The quantity and quality of water available at the unit locations is adequate and good for production of Dyestuff/Pigments/Intermediates.

List of Machineries

The manufacturing facility of Phase 1 for Dyestuff Pigments and Intermediates will be set-up by OME Engineers & Fabricators. The list of machineries & equipment to be required are as under:

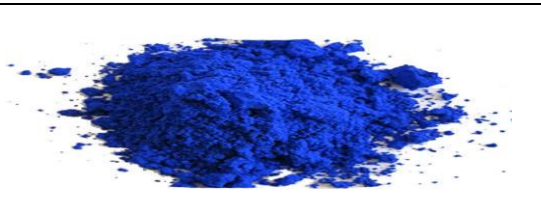

Sr. No.	Machinery to be installed
1.	CSA storage tank

Note: Our Company have not yet placed any order for any of the machinery required to be installed, further we have not entered into any definitive agreements with the suppliers.

OUR PRODUCTS:

Product Name	Product	Description
Turquoise Blue Dyes		Direct/ Reactive Turquoise Blue dyes are a class of highly coloured organic substances, primarily used for textiles, paper and ink. The Reactive Dyestuffs attach themselves to their substrates by a chemical reaction that forms a covalent bond between the molecule of dye and fibre. The Direct Dyestuffs have multiple applications in Textiles, Inks, Paper but do not react with the substrates.
Alpha Blue		This is a product manufactured by pigmentation of CPC Blue Crude and has very good applications in Textile, Plastic, Paper, Ink, Paint and many other industries.

Copper Phthalocyanine Blue		A bright, crystalline, synthetic blue pigment from the group of Phthalocyanine dyes. It is highly valued for its superior properties such as light fastness, tinting strength, covering power and resistance to the effects of alkalis and acids. It is a Raw Material for production of Turquoise Blue Dyestuffs, Pigment Green, Pigment Alpha Blue & Pigment Beta Blue.

END USERS:

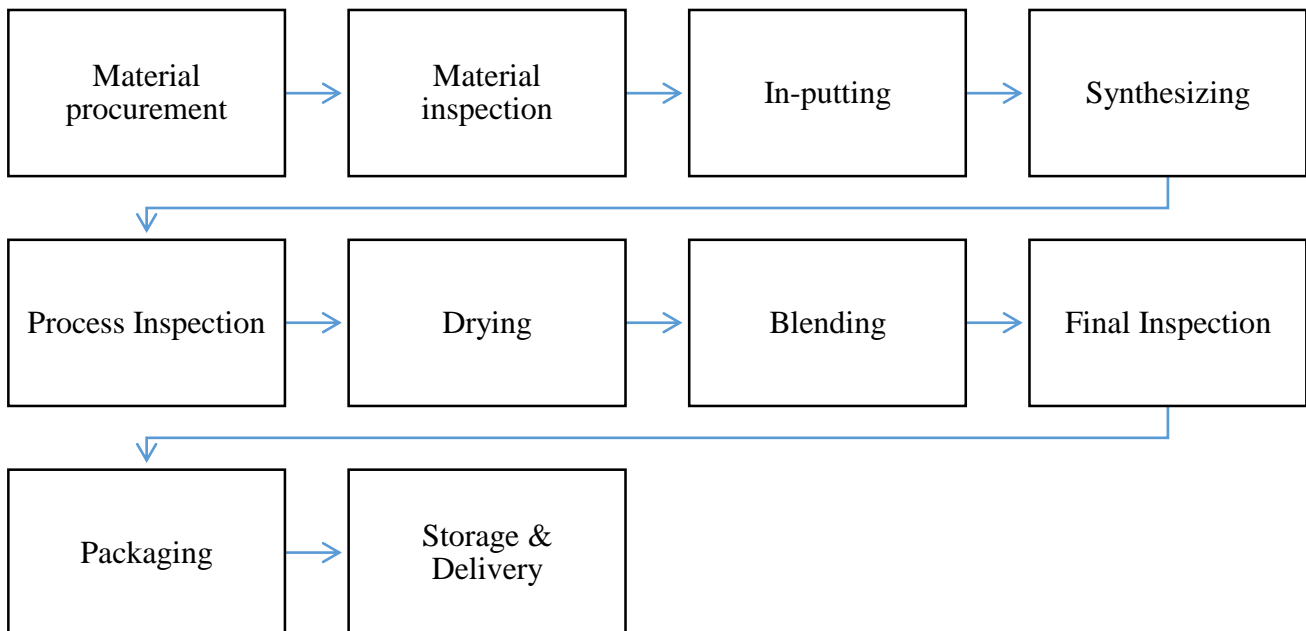

We cater to International and Domestic customers. Currently we offer our products through traders. We manufacture dyes that are used for dyeing cloths in textile and garment industry and are sold as per the orders received by parties either directly from manufacturers or traders.

RAW MATERIALS:

Our company procures more than 10 raw materials of different types and nature. Major raw materials of the company are Vinylsulfone, Phosphorus Trichloride, Soda Ash, Ammonium Molybdate, etc. We meet our raw materials requirements by procuring such materials from domestic market.

OUR MANUFACTURING PROCESS:

The manufacturing of dyes requires a numerous process to obtain a complete powder form product. The major steps include:

1. Material procurement:

We intend to maintain low-cum-sufficient level of inventory. To achieve this, we plan and forecast our productions and accordingly the order for raw material is placed. Our production team and sales team are in constant touch which helps us to order optimal level of raw material. Further, our technical team ensures that the raw materials we procure are meeting the quality standards. Once the raw materials are procured from nearby suppliers, it is stored in our manufacturing facility having adequate storage capacity.

2. Material Inspection:

All materials procured or manufactured at our plants are properly tested for its purity and only after the approval of the purity, the same are used for further process.

3. In-putting:

Once tested, the raw materials are used and charged at required pressure and temperature as per the product designs to ensure best yields.

4. Synthesizing:

To maintain the optimum reaction conditions at every reaction stage, the chemical team controls the whole synthesizing/reaction process according to the procedure manual for each product. Synthesis/Reaction is the process in which all the elements of the dye are mixed together with required technical and chemical criteria.

5. Process Inspection:

To maintain the primary product after synthesizing in best quality, the in-house inspection team with requisite technical expertise in the quality-management department makes strict inspections of important items and assesses them to determine whether they are good enough for further processing.

6. Drying:

In the spray drying process, moisture from the dye is evaporated through heating while the powder form of dye is collected in bags. Spray-drying machines are usually large in size where heating and the entire process of drying the dyestuff is continuously followed.

7. Blending:

The skilled technicians of production team as well as quality control team blend the material of different batches to make a good and homogeneous lot as per the quality requirements of the customers.

8. Final Inspection:

The inspection team of the quality management department collects samples from all manufactured items by lot to compare with the standard samples through the spectrophotometer and dyeing test, and thereby in case their colouring, penetration, fastness, etc. fall within the minimum allowable limits of error, the manufactured items shall be allowed to be packed as final products.

9. Packaging:

Once the product meets all the required quality criteria, they are packed into baggage like bags, Jumbo bags, boxes, MS drums etc. as per the requirement of the customer. Packaging is done keeping in mind the safety of the products and at the same time ensures low leakages into open environment.

10. Storage & Delivery:

After proper packaging as per the customer's order, they are either directly loaded into trucks for shipment or they are stored in the warehouse inside the premises itself. Necessary care is taken to avoid any contamination of the product. Exports orders are made through Mundra Port, Pipavav Port, Mumbai JNPT, Amritsar rail as per the final location of the customer.

OUR COMPETITIVE STRENGTHS:

1. Focus on quality and innovation

We believe our strength and success factor has been our constant focus on quality and innovation. To keep sailing on it, we stress on and constantly strive to improve the quality of our products. We have a dedicated R&D team which constantly works for waste effluent management, improving the quality, alternative cost saving methods and the likes. Our Company is an ISO 9001:2015 certified and our technically qualified team ensures that we procure raw materials which meet the quality standards. To ensure quality products, we test samples from every lot of raw material in our laboratory and only once they meet the quality criteria, it is further used for production. Further, finished products are also checked with respect to quality, and only after meeting the quality standards, products are considered for packing. We have produced a wide range of colours and their combinations meeting wide range of customers' demands.

2. Experienced Promoters and Management

We have an experienced management team including our promoters who have an experience of more than 2 decades in dyestuff industry. Our Company is led by our promoters, Mr. Maunal Gandhi and Mr. Minku Gandhi who has rich experience and knowledge of the industry. Their vision and values have been the foundation of our growth story. The business which was started just as a trading company has now become an export oriented manufacturing company with further expansions plans in place. We understand quality forms an important aspect in dyestuff industry and hence we have established a qualified technical team to ensure quality output. It is through the constant vision and experience of our management team including the promoters, we have been able to build a sustainable business model and created a wide market reach. We strongly believe that the success of our organization lies in the efforts of our human resources.

3. Intermediates Production

Dyestuffs manufacturing involves use of many raw materials and intermediates in the whole process, prices of which are highly volatile and forms a significant part of total manufacturing costs. Further, dependency on third party suppliers affects the overall costs. Hence, our company has been into manufacturing of one of the intermediates, CPC Blue, which helps us to reduce our dependency on third parties, saving us substantial amount.

4. Locational Advantage leading to reduction of cost

Reducing cost of production is an inherent activity which our company has been focussing on since its inception. Procuring raw material at a competitive price effects our financial position substantially. We procure almost all of our raw materials mostly from domestic players having their facility/warehouses in close proximity to our manufacturing facility hence reducing the cost of transportation without compromising on the quality of the raw material procured. It also ensures us a continuous supply of raw materials. Further, our upcoming facility is strategically located at Bharuch, Gujarat which is approx. 15 kms from the nearby port which will further help us reduce our overall cost.

5. Established relationship with clients

Our company generates most of its revenue from export operations, it has trusted buyers in foreign countries from which we receive repeated orders in frequent intervals. The repetition of orders is basically owing to the quality of the products we provide and also the healthy relationships we maintain. Our promoter visits regularly to our foreign traders to understand their needs, concerns and address them personally. We understand the dye industry is highly competitive and maintaining healthy relationships will help us to beat the competition.

OUR BUSINESS STRATEGY:

Our vision is to grow in existing and new markets by providing quality products. We intend to capitalize on the growing demand for our products in India and abroad. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business.

1. Business expansion

We started our business in 1993 and steadily increased the capacity to around 2,520 tons per annum. With the customer base we already have, rich experience we possess and the growth we foresee due to structural shift of demand to India, we intend to tap the opportunity by expanding our business by setting up a new facility with a manufacturing capacity of around 16,140 tons per annum in various phases while the permitted capacity is around 32,800 tons p.a. To implement this, we have already purchased a land measuring 75,060 sq. meters in Saykha Industrial Estate - Bharuch, Gujarat. The machineries required for this facility would be funded partly by proceeds of this issue and partly from other sources of funds. The facility is expected to commence by F.Y. 2020-21 in various stages.

2. Reduction of costs

Our company acknowledges the fact that having a manufacturing facility which will enable manufacturing of dye intermediates is an effective way of reducing costs. Till date, we have been procuring raw materials and intermediates from third parties the prices of which are volatile and affect our overall profitability adversely. However, our management aims to manufacture certain more intermediates in the new facility which will aid us to reduce our overall costs along with reducing the dependency on third party suppliers.

3. Vertical integration of production process

The company intends to increase the research and development efforts to develop manufacturing process for a wider range of dyes products, by vertically integrating the production processes. This will serve as an effective cost cutting as well as expansion measure. This can be done through continual improvement in technology, cut manufacturing costs through process improvement, develop new product lines which are environmentally responsible.

4. Expanding customer base

Dye manufacturing is done only in India, China and Indonesia. However, India and China meets the substantial portion of global demand and hence the market for manufacturers in India is huge. The company's product is currently marketed majorly in Asia and Middle East. The strategy going forward is to cater the market of other international locations, viz., UK, USA, Canada, etc. The demand for dye is ever increasing including in India where catering to newer customer will be comparatively an easier task.

5. Capacity expansion

Our company is currently operating at around 90% of its capacity. With the strong relationship we possess with our customers, marketing our product can be done without much effort. Since, the market with the buyer is readily available, we intend to ramp up our production to boost the revenue. As mentioned in the "*Objects of the issue*" in Page 100 of this Draft Prospectus, we would be increasing our overall production capacity which will enable us to enter into new phase of growth.

SWOT ANALYSIS:

Strengths:

1. Locational Advantage –

The manufacturing facility of our company is located at Vatva GIDC, Gujarat and the new proposed plant is located in Saykha Industrial Estate in Dahej, Gujarat which is 15 kms from Dahej Port allowing easy export to major markets. Raw material procurement are mostly done from players within Gujarat which are in near proximity to the manufacturing facility. This reduces our costs significantly.

2. Strong customer base –

We supply our products to traders in foreign countries. These customers bring repetitive orders and ensures continuous business to our company. This industry being a highly competitive industry requires strong customer base to grow and stay ahead.

3. Experienced management –

Our promoters are in the dye industry for more than 2 decade. Our technical team is led by qualified people who has the relevant technical knowledge. Their knowledge and experience gives our company a major benefit in devising and implementing the perfect strategy to stand above the competition.

Weakness:

1. Presence in one type of colour –

Although the company is producing variety of color shades in Reactive Blue dyes, we are majorly present only in 1 color, i.e., Blue. This restricts us to cater wider category of customers. However, going forward, our company intends to expand its portfolio to multi-colors with dyestuff/intermediates integrated plants of Blacks and other colors.

2. Dependent on third party suppliers –

Our company procures most of the Dye intermediates from third party producers. It does not have its own manufacturing facility for producing all the required intermediates and hence is dependent on third parties to some extent. In the past, company has faced profitability issues owing to sudden increase in prices of intermediates, we are prone to such threats by our suppliers. However, the relationship and the volume of business we generate for them mitigates this weakness of us. Further all new plants proposed to be commissioned are with backward integration of raw materials intermediates also.

3. Failure to implement plans –

We believe successful implementation of strategy is more important than devising the strategy. If the plan as envisaged is not implemented properly, it may affect the business. However, with the decades of experience our management possess and the past trend of our business, we believe we would implement our strategies at the right direction without any difficulties.

Opportunities:

1. Decreasing competition from China –

Dye industry has only 2 major players across the globe, India and China apart from Indonesia. With increasing environmental norms and strict governmental regulations w.r.t operating a chemical industry, the competition which was being faced due to China is slowly eroding. There have been shutdowns of many facilities in China positively impacting the dye industry in India consequently growth in Dye prices. With decrease in total supply, dye manufacturers have huge opportunity both in terms of volume and value.

2. Introduction of GST –

Introduction of GST is expected to benefit all the organized sector players in the industry in long term. This will help the organized players like ours to tighten their grip over the market by maintaining a cost structure more efficient than that of any unorganized local manufacturers. Indian Dyes and Dyestuff market is highly fragmented, with 40-50% of the market being unorganised. The recent events including GST, stricter environment norms, rising compliance needs from global clients could eventually lead to a need to consolidate, large and efficient players growing higher than the industry and smaller units closing or consolidating with large players.

Threats:

1. Increasing competition –

Dye industry is highly competitive which faces competition from both organised and unorganised player. Our company faces tough competition from them in terms of pricing and customer base. Further, there is contingency on the longevity of benefit accruing due to restrictions in China. There may be turnaround in China's dye industry which possess huge threat to Indian market. However, our company has been successful enough to compete with them with increasing market share.

2. Regulatory risks –

Our company deals in hazardous chemicals. Hyaluronic acid, one of the products that is used in dye manufacturing is the most polluting industrial effluent. It is toxic and non-biodegradable. Hence here there is huge amount of compliance risk wherein it is obvious to state that if the Company fails to comply with Environmental Laws and Regulations, the results of operations will be adversely affected.

UTILITIES & INFRASTRUCTURE FACILITIES:

Infrastructure Facilities

Our registered office and manufacturing units are well equipped with computer systems, internet connectivity, other communications equipment, security and other facilities, which are required for our business operations to function smoothly. It is equipped with requisite utilities and facilities including the following:

Power

Our Company meets its power requirements by purchasing electricity from Gujarat State Electricity Board.

Water

Our Company procures water from GIDC bore well situated in nearby vicinity.

Fuel

We procure Gas from Adani for all its operations.

Fire Hydrant

Our Company has installed fire safety equipment to manage any fire accident at its facility.

COLLABORATIONS/ TIE UPS OR JOINT VENTURE:

As on the date of this Draft Prospectus, our Company has not entered into any technical or other collaboration or Tie ups or Joint Venture.

EXPORT AND EXPORT OBLIGATION:

As on date of this Draft Prospectus, our Company does not have any Export Obligation under Export Promotion Capital Goods (EPCG) Scheme or any other scheme of Government of India.

CAPACITY AND CAPACITY UTILIZATION:

Our manufacturing unit is engaged in manufacturing and sale of reactive dyes. The production and utilized capacities of our Company for these products for the past three years and also the projected capacities and utilizations for the subsequent three years are set forth in the following table:

HUMAN RESOURCES:

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for our business.

As on December 31, 2017 we have 58 employees at our manufacturing facility and registered office, who look after our business operations, factory management, administrative, secretarial, legal, marketing and accounting functions in accordance with their respective designated goals. Bifurcation of the employee as per their role is as under:

Designation	Employees
Manager	1
Chemist	9
Admin Staff	15
Operators	12
Fitter	2
Electrician	3
Workers	12
Others	4
Total	58

Apart from these we also employ casual labour or temporary labour on need basis. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth. Our work progress and skilled/ semi-skilled/ unskilled resources together with our strong management team have enabled us to successfully implement our growth plans.

SALES AND MARKETING:

The efficiency of the marketing and sales network is critical success of our Company. Our success lies in the strength of our relationship with the traders who have been associated with our Company. Our team through their experience and good rapport with these traders owing to timely and quality delivery of service plays an instrumental role in creating and expanding a work platform for our Company. We sell our products under the brand name of “Ushanti”.

Our Domestic as well as Export Marketing is handled by management team having industry experience. We believe the relationship with our business partners is strong and established, as we receive repeated orders. To retain our customers, our team having adequate experience and competencies, regularly interact with them and focus on gaining an insight into the additional needs of customers.

COMPETITION:

Dye Chemical Products industry being a large and concentrated industry, we face competition from various domestic players and international players specifically from China. The Industry which we cater to is competitive, unorganized and fragmented with many small and medium-sized companies and entities and we compete with organized as well as unorganized sector on the basis of pricing of product, product quality and product range. Most of our competitors in the regional level are from the unorganized sector. Among listed peers, we face competition from:

1. Aksharchem (India) Limited,
2. Kiri Industries Limited,
3. Camex Limited, and
4. Meghmani Organics Limited

Although, competition for “Turquoise Blue” dyestuffs and pigments are lower than other dyestuffs due to specialised presence of competitors in respective segments, our Company intend to continue compete vigorously to capture more market share and manage our growth in an optimal way.

INSURANCE:

Our Company has insurance coverage which we consider reasonably sufficient to cover all normal risks associated with our operations and which we believe is in accordance with the industry standards.

We have taken Marine Cargo, Standard Fire & Special Perils Policy for a substantial majority of our assets at our office and factory. These policies also insure us against the risk of earthquakes with plinth and foundation. Our policies are subject to customary exclusions and customary deductibles. We will continue to review our policies to ensure adequate insurance coverage is maintained.

We have following insurance Policies:

The details of such approvals have more particularly been described for your reference in the chapter titled “Government and Other Statutory Approvals” beginning on page number 209 of this Draft Prospectus.

APPLICABLE LAWS AND REGULATIONS

BUSINESS/TRADE RELATED LAWS/REGULATIONS

The Micro, Small and Medium Enterprises Development Act, 2006

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME) the Micro, Small and Medium Enterprises Development Act, 2006 is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and Regulation) Act, 1951 as “micro enterprise”, where the investment in plant and machinery does not exceed twenty-five lakh rupees; “Small enterprise”, where the investment in plant and machinery is more than twenty-five lakh rupees but does not exceed five crore rupees; or a medium enterprise, where the investment in plant and machinery is more than five crore but does not exceed ten crore rupees and in the case of the enterprise engaged in the services, “Micro – enterprise”, where the investment in equipment does not exceed ten lakh rupees, “Small Enterprise” where the investment in equipment is more than ten lakh rupees but does not exceed two crore rupees, or “Medium Enterprise” where the investment in equipment is more than two crore rupees but does not exceed five crore rupees.

Gujarat Industrial Policy 2015

Gujarat has witnessed strong growth in Micro, Small & Medium Enterprises (MSMEs) sector which covers the medium sector of Gujarat. MSME sector has a special importance as this is the sector which belongs to common man. Gujarat Government wishes to strengthen the sector by making it more technology-driven. This type of support will come by way of interest subsidy for manufacturing and service sector, venture capital assistance, quality certification, technology acquisition fund, patent assistance for national and international, energy and water conservation audit, market development assistance and support, MSMEs for credit rating, raising capital through MSE exchange, reimbursement of CGTSME scheme for collateral free loan, state awards under MSMEs and skill development etc. Support would also be extended for development of ancillary and auxiliary enterprises for labour intensive industries.

The Government of Gujarat will constitute separate awards for MSMEs. The awards will be for achieving excellence through growth and production profit, quality improvement measures, Environment improvement measures and Innovation and new product/process/technology development. The policy encourages adoption of new and innovative technologies by providing financial support to each cluster for every innovative technology, setting up R&D Institutions, setting new laboratories, financial support through partial reimbursement of cost for filing domestic patents and international patents.

Gujarat government shall be taking market development initiatives with the intention of giving enhanced visibility to local produce from large industries and specifically from MSMEs. Government of Gujarat stresses on “Zero Defect” to produce globally-competitive, locally manufactured goods. One of the expansive marketing practices around the globe is participation in international and domestic trade fairs to show one’s products or wares. Government of Gujarat will make market credit available to MSMEs.

Quality improvement is strongly envisaged in the new industrial policy. The assistance will be granted by national (approved by quality council of India) and international certification. The policy also intends to encourage use of enterprise resources planning system (ERP) for MSMEs. Government of Gujarat also provides assistance for raising capital through SME exchange on one time basis.

The Indian Boilers Act, 1923

The Indian Boilers Act, 1923 (the “Boilers Act”) states that the owner of any boiler (as defined therein), which is wholly or partly under pressure when is shut off, shall under the provisions of the Boilers Act, apply to the Inspector appointed thereunder to have the boiler registered which shall be accompanied by prescribed fee. The certificate for use of a registered boiler is issued pursuant to such application, for a period not exceeding twelve months, provided that a certificate in respect of an economiser or of an unfired boiler which forms an integral part of a processing plant in which steam is generated solely by the use of oil, asphalt or bitumen as a heating medium may be issued for a period not exceeding twenty-four months in accordance with the regulations made under Boilers Act. On the expiry of the term or due to any structural alteration, addition or renewal to the boiler, the owner of the boiler shall renew the certificate by providing the Inspector all reasonable facilities for the examination and all such information as may reasonably be required of him to have the boiler properly prepared and ready for examination in the prescribed manner.

Anti-Trust Laws

Competition Act, 2002

An act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect interest of consumer and to ensure freedom of trade in India. The act deals with prohibition of agreements and Anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Act.

The prima facie duty of the commission is to eliminate practices having adverse effect on competition, promote and sustain competition, protect interest of consumer and ensure freedom of trade. The commission shall issue notice to show cause to the parties to combination calling upon them to respond within 30 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India. In case a person fails to comply with the directions of the Commission and Director General he shall be punishable with a fine which may exceed to Rs. 1 lakh for each day during such failure subject to maximum of Rupees One Crore.

GENERAL CORPORATE COMPLIANCE

The Companies Act 1956 and the Companies Act, 2013

The consolidation and amendment in the law relating to the Companies Act, 1956 made way to the enactment of the Companies Act, 2013. The Companies Act 1956 is still applicable to the extent not repealed and the Companies Act, 2013 is applicable to the extent notified. The act deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act, 2013. The procedure relating to winding up, voluntary winding up, appointment of liquidator also forms part of the act. The provision of this act shall apply to all the companies incorporated either under this act or under any other previous law. It shall also apply to banking companies, companies engaged in generation or supply of electricity and any other company governed by any special act for the time being in force. A company can be formed by seven or more persons in case of public company and by two or more persons in case of private company. A company can even be formed by one person i.e., a One Person Company. The provisions relating to forming and allied procedures of One Person Company are mentioned in the act.

Further, Schedule V (read with sections 196 and 197), Part I lays down the conditions to be fulfilled for the appointment of a managing or whole time director or manager. It provides the list of acts under which if a person

is prosecuted, he cannot be appointed as the director or Managing Director or Manager of the firm. The provisions relating to remuneration of the directors payable by the companies is under Part II of the said schedule.

EMPLOYMENT AND LABOUR LAWS

Contract Labour (Regulation and Abolition) Act, 1970 (“CLRA”)

The Contract Labour (Regulation and Abolition) Act, 1970 has been enacted to regulate the employment of contract labour in certain establishments, the regulation of their conditions and terms of service and to provide for its abolition in certain circumstances. The CLRA applies to every establishment in which 20 or more workmen are employed or were employed on any day of the preceding 12 months as contract labour. The CLRA vests the responsibility on the principal employer of an establishment to which the CLRA applies to make an application to the registered officer in the prescribed manner for registration of the establishment. In the absence of registration, a contract labour cannot be employed in the establishment. Likewise, every contractor to whom the CLRA applies is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. To ensure the welfare and health of the contract labour, the CLRA imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA.

Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 (“the EPF Act”) and the Employees Provident Fund Scheme, 1952

The EPF Act is applicable to an establishment employing more than 20 employees and as notified by the government from time to time. All the establishments under the EPF Act are required to be registered with the appropriate Provident Fund Commissioner. Also, in accordance with the provisions of the EPF Act, the employers are required to contribute to the employees’ provident fund the prescribed percentage of the basic wages, dearness allowances and remaining allowance (if any) payable to the employees. The employee shall also be required to make the equal contribution to the fund. The Central Government under Section 5 of the EPF Act (as mentioned above) frames Employees Provident Scheme, 1952.

Employees Deposit Linked Insurance Scheme, 1976

The scheme shall be administered by the Central Board constituted under section 5A of the EPF Act. The provisions relating to recovery of damages for default in payment of contribution with the percentage of damages are laid down under Section 8A of the act. The employer falling under the scheme shall send to the Commissioner within fifteen days of the close of each month a return in the prescribed form. The register and other records shall be produced by every employer to Commissioner or other officer so authorized shall be produced for inspection from time to time. The amount received as the employer’s contribution and also Central Government’s contribution to the insurance fund shall be credited to an account called as “Deposit-Linked Insurance Fund Account.”

The Employees Pension Scheme, 1995

Family pension in relation to this act means the regular monthly amount payable to a person belonging to the family of the member of the Family Pension Fund in the event of his death during the period of reckonable service. The scheme shall apply to all the employees who become a member of the EPF or PF of the factories provided that the age of the employee should not be more than 59 years in order to be eligible for membership under this act. Every employee who is member of EPF or PF has an option of the joining scheme. The employer shall prepare a Family Pension Fund contribution card in respect of the entire employee who is member of the fund.

Employees’ State Insurance Act, 1948 (the “ESI Act”)

It is an act to provide for certain benefits to employees in case of sickness, maternity and ‘employment injury’ and to make provision for certain other matters in relation thereto. It shall apply to all factories (including factories belonging to the Government) other than seasonal factories. Provided that nothing contained in this

sub-section shall apply to a factory or establishment belonging to or under the control of the Government whose employees are otherwise in receipt of benefits substantially similar or superior to the benefits provided under this Act. The ESI Act requires all the employees of the establishments to which this Act applies to be insured in the manner provided there under. Employer and employees both are required to make contribution to the fund. The return of the contribution made is required to be filed with the Employee State Insurance department.

Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965 imposes statutory liability upon the employers of every establishment in which 20 or more persons are employed on any day during an accounting year to pay bonus to their employees. It further provides for payment of minimum and maximum bonus and linking the payment of bonus with the production and productivity.

Payment of Gratuity Act, 1972

The Act shall apply to every factory, mine plantation, port and railway company; to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; such other establishments or class of establishments, in which ten or more employees are employed, on any day of the preceding twelve months, as the Central Government, may by notification, specify in this behalf.. A shop or establishment to which this act has become applicable shall be continued to be governed by this act irrespective of the number of persons falling below ten at any day. The gratuity shall be payable to an employee on termination of his employment after he has rendered continuous service of not less than five years on superannuation or his retirement or resignation or death or disablement due to accident or disease. The five year period shall be relaxed in case of termination of service due to death or disablement.

Minimum Wages Act, 1948 (“MWA”)

The Minimum Wages Act, 1948 came into force with an objective to provide for the fixation of a minimum wage payable by the employer to the employee. Under the MWA, every employer is mandated to pay the minimum wages to all employees engaged to do any work skilled, unskilled, manual or clerical (including out-workers) in any employment listed in the schedule to the MWA, in respect of which minimum rates of wages have been fixed or revised under the MWA. Construction of Buildings, Roads, and Runways are scheduled employments. It prescribes penalties for non-compliance by employers for payment of the wages thus fixed.

Maternity Benefit Act, 1961

The Maternity Benefit Act, 1961 provides for leave and right to payment of maternity benefits to women employees in case of confinement or miscarriage etc. The act is applicable to every establishment which is a factory, mine or plantation including any such establishment belonging to government and to every establishment of equestrian, acrobatic and other performances, to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the state government may, with the approval of the Central Government, after giving at least two months' notice shall apply any of the provisions of this act to establishments or class of establishments, industrial, commercial, agricultural or otherwise.

Equal Remuneration Act, 1979

The Equal Remuneration Act 1979 provides for payment of equal remuneration to men and women workers and for prevention discrimination, on the ground of sex, against female employees in the matters of employment and for matters connected therewith. Trade Union Act, 1926 and Trade Union (Amendment) Act, 2001

Provisions of the Trade Union Act, 1926 provides that any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment, or non-employment, or the terms of employment or the conditions of labour, of any person shall be treated as trade dispute. For every trade dispute a trade union has to be formed. For the purpose of Trade Union Act, 1926, Trade Union means combination, whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, or for imposing restrictive condition on the conduct of any trade or business etc.

The Sexual Harassment of Women at workplace (Prevention, Prohibition and Redressal) Act, 2013

In order to curb the rise in sexual harassment of women at workplace, this act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms sexual harassment and workplace are both defined in the act. Every employer should also constitute an “Internal Complaints Committee” and every officer and member of the company shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organising awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979

This Act has been enacted with an aim to regulate the employment of inter-state migrant workmen and to provide for their conditions of service. It is applicable to every establishment employing five or more inter-state migrant workmen or having employed in the past twelve months and to every contractor who employs or who employed five or more inter-state migrant workmen in the past twelve months. Every Principal Employer of the establishment employing inter-state migrant workmen has to make an application for the registration of the establishment in the prescribed manner and time. Also a contractor employing inter-state migrant workmen has to obtain a license for the same from the licensing officer appointed for the purpose by the Central or the state Government. The license is valid only for a specified period and requires to be renewed at its expiry. The Act levies some duties on the principal employer and the contractor. The contractor has to provide for adequate wages, medical facilities and other benefits while it is the responsibility of the principal employer to provide for the displacement allowance and journey allowance to the workmen.

Industrial Disputes Act, 1947 (“ID Act”) and Industrial Dispute (Central) Rules, 1957

The ID Act and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The ID Act was enacted to make provision for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. Employees may also be subject to the terms of their employment contracts with their employer, which contracts are regulated by the provisions of the Indian Contract Act, 1872. The ID Act also sets out certain requirements in relation to the termination of the services of the workman. The ID Act includes detailed procedure prescribed for resolution of disputes with labour, removal and certain financial obligations up on retrenchment. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lock-outs, closures, lay-offs and retrenchment.

TAX RELATED LEGISLATIONS

Value Added Tax (“VAT”)

VAT is a system of multi-point Levy on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT Liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each state that has introduced VAT has its own VAT Act, under which,

persons liable to pay VAT must register and obtain a registration number from Sales Tax Officer of the respective State.

Gujarat Value Added Tax Act, 2003 (“GVAT”)

Gujarat Value Added Tax, 2003 (GVAT Act) is made effective in the state of Gujarat from 1st April, 2006. On its implementation, the following Acts are repealed:

- The Gujarat Sales Tax Act, 1969,
- The Bombay Sales of Motor Spirit Taxation Act, 1958,
- The Purchase Tax on Sugarcane Act, 1989.

However provisions relating to pending assessment, appeals, recovery etc., under the above Acts will survive. The basic requirement of charging tax under GVAT Act is that where any sale in the course of business is affected, in the State of Gujarat, VAT is payable under GVAT Act. Transactions made in the course of business only are covered under the GVAT Act.

Service Tax

Chapter V of the Finance Act, 1994 as amended, provides for the levy of a service tax in respect of ‘taxable services’, as specified in entry 39 defined therein. The service provider of taxable services is required to collect service tax from the recipient of such services and pay such tax to the Government. Every person who is liable to pay this service tax must register himself with the appropriate authorities. According to Rule 6 of the Service Tax Rules, every assessee is required to pay service tax in TR 6 challan by the 5th / 6th of the month immediately following the month to which it relates. Further, under Rule 7 (1) of Service Tax Rules, the Company is required to file a half yearly return in Form ST 3 by the 25th of the month immediately following the half year to which the return relates.

Central Sales Tax Act, 1956 (“CST”)

The main object of this act is to formulate principles for determining (a) when a sale or purchase takes place in the course of trade or commerce (b) when a sale or purchase takes place outside a State (c) when a sale or purchase takes place in the course of imports into or export from India, to provide for levy, collection and distribution of taxes on sales of goods in the course of trade or commerce, to declare certain goods to be of special importance trade or commerce and specify the restrictions and conditions to which State Laws imposing taxes on sale or purchase of such goods of special importance (called as declared goods) shall be subject. CST Act imposes the tax on interstate sales and states the principles and restrictions as per the powers conferred by Constitution.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taking out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administered by Central Board of Excise and Customs under the Ministry of Finance.

The Central Excise Act, 1944

The Central Excise Act, 1944 (“Central Excise Act”) consolidates and amends the law relating to Central Duties of Excise on goods manufactured or produced in India. Excisable goods under the Act means goods specified in the Schedule to the Central Excise Tariff Act, 1985 as being subject to duty of excise. Factory means any premises, including the precincts thereof, wherein or in any part of which excisable goods are manufactured, or wherein or in any part of which any manufacturing process connected with the production of these goods being carried on or is ordinarily carried out. Under the Act a duty of excise is levied on all excisable goods, which are

produced or manufactured in India as and at the rates, set forth in the First Schedule to the Central Excise Tariff Act, 1985.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by Centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products.

Taxpayers with an aggregate turnover of Rs. 20 lakhs would be exempt from tax. The exemption threshold for special category of states like North-East shall be Rs. 5 lakhs. Small taxpayers with an aggregate turnover in preceding financial year upto Rs. 1 crore (75 lakhs in case of special category states) may opt for composition levy. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. There is a special rate of 0.25% on some precious and semi-precious stones and 3% on gold. In addition a cess of 15% or other rates on top of 28% GST applies on few items like aerated drinks, luxury cars and tobacco products. The rate of tax for CGST and SGST/UTGST shall not exceed –

- a) 5% in case of restaurants etc.
- b) 1% of the turnover in case of manufacturer
- c) 1% turnover of taxable supplies of goods, in case of other supplier

Export and supplies to SEZ shall be treated as zero-rated supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration number known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple location in a state, a separate application will be made for registration of each and every location. The registered assessee are then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

OTHER LAWS

The Factories Act, 1948 (“Factories Act”)

The Factories Act, 1948 aims at regulating labour employed in factories. A “factory” is defined as “any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...”. The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 (“Environment Protection Act”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to (a) prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Air Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Air Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Water Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Water Act.

Hazardous Waste (Management and Handling) Rules, 1989 (“Hazardous Waste Rules”)

The Hazardous Waste Rules, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of the National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999 (“TM Act”)

The Trade Marks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

- Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (“DGFT”) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. DGFT is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999 (“FEMA”)

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 and the rules and regulations promulgated there under. FEMA aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or

to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India

THE FOREIGN DIRECT INVESTMENT

The Board of Directors
USHANTI COLOUR CHEM LTD
88/8, PHASE - 1, NR.TORRENT LAB, VATVA,
G .I. D. C. AHMEDABAD

Dear Sirs,

We, N. K. Aswani & Co., have examined the attached Restated Statement of Assets and Liabilities of **USHANTI COLOUR CHEM LTD** (the "Company") as at 31st December, 2017 , 31st March 2017, 2016, 2015, 2014 and 2013 and the related Restated Statement of Profit & Loss and Restated Statement of Cash Flow for the years / period ended as at 31st December 2017, 31st March 2017, 2016, 2015, 2014 and 2013, annexed to this report for the purpose of inclusion in the offer document prepared by the Company (collectively the "**Restated Summary Statements**" or "**Restated Financial Statements**"). These Restated Summary Statements have been prepared by the Company and approved by the Board of Directors of the Company in connection with the Initial Public Offering (IPO) in SME Platform of NSE Limited.

1. These Restated Summary Statements have been prepared in accordance with the requirements of:
 - (i) Part I of Chapter III to the Companies Act, 2013("Act") read with Companies (Prospectus and Allotment of Securities) Rules 2014;
 - (ii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2009 ("**ICDR Regulations**") issued by the Securities and Exchange Board of India ("**SEBI**") in pursuance to Section 11 of the Securities and Exchange Board of India Act, 1992 and related amendments / clarifications from time to time;
 - (iii) The terms of reference to our engagements with the Company requesting us to carry out the assignment, in connection with the Draft Prospectus/ Prospectus being issued by the Company for its proposed Initial Public Offering of equity shares in SME Platform of NSE. ("**IPO**" or "**SME IPO**"); and
 - (iv) The Guidance Note on Reports in Company Prospectus (Revised) issued by the Institute of Chartered Accountants of India ("**Guidance Note**").
2. The Restated Summary Statements of the Company have been extracted by the management from the Audited Financial Statements of the Company for the financial year / period ended on 31st December, 2017 , 31st March 2017, 2016, 2015, 2014 and 2013.

3. In accordance with the requirements of Part I of Chapter III of Act including rules made therein, ICDR Regulations, Guidance Note and Engagement Letter, we report that:
- (i) The "Statement of Assets and Liabilities as Restated" as set out in Annexure I to this report, of the Company as at 31st December, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Assets and Liabilities, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV(A) to this Report.
 - (ii) The "Statement of Profit and Loss as Restated" as set out in Annexure II to this report, of the Company for the years / period ended 31st December, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Profit and Loss, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV(A) to this Report.
 - (iii) The "Statement of Cash Flow as Restated" as set out in Annexure III to this report, of the Company for the years / period ended 31st December, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 are prepared by the Company and approved by the Board of Directors. These Statement of Cash Flow, as restated have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Annexure IV(A) to this Report.
4. Based on the above, we are of the opinion that the Restated Financial Statements have been made after incorporating:
- a) Adjustments for the changes in accounting policies retrospectively in respective financial period/years to reflect the same accounting treatment as per the changed accounting policy for all reporting periods, if any.
 - b) Adjustments for prior period and other material amounts in the respective financial years/period to which they relate and there are no qualifications which require adjustments.
 - c) Audit Report from FY 2012-13 to FY 2016-17 along with stub period were Qualified with as the company had not included Excise duty payable on closing stock of finished Goods, in Value of Finished Goods as Disclosed in Financial statement, However, this had no impact on Profit & Loss of the company. Other than this there were no qualifications in the Audit Reports issued by the Statutory Auditors for the financial period/year ended on 31st December, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 which would require adjustments in this Restated Financial Statements of the Company.
 - d) These Profits and Losses have been arrived at after charging all expenses including depreciation and after making such adjustments/restatements and regroupings as in our opinion are appropriate and are to be read in accordance with the Significant Accounting Polices and Notes to Accounts as set out in Annexure IV(A) to this report.
 - e) The company has not included Excise duty payable on closing stock of finished Goods, in Value of Finished Goods as Disclosed in Financial statement with contravention to the Guidelines as mentioned in AS-2 "Valuation of Inventory". However, Such non-inclusion will not Affect Profit/Loss for the year.
5. Audit for the financial year / period ended on 31st December, 2017, 31st March 2017, 2016, 2015, 2014 and 2013 was conducted by M/s. C.R. Sharedalal & Co. (Chartered Accountants). Accordingly reliance has been placed on the financial information examined by them for the said years. The financial report included for these years is based solely on the report submitted by them. Further financial statements for the period / financial year ended on 31st March, 2017 have been reaudited by us as per the relevant guidelines.

6. We have also examined the following other financial information relating to the Company prepared by the Management and as approved by the Board of Directors of the Company and annexed to this report relating to the Company for the financial period/year ended on 31st December, 2017 , 31st March 2017, 2016, 2015, 2014 and 2013 proposed to be included in the Draft Prospectus/Prospectus (“Offer Document”).

(A) Corporate Information :

The Company was originally incorporated as "Ushanti Colour Chem Private Limited" at Ahmedabad, Gujarat as a Private Limited Company under the provisions of Companies Act, 1956 vide Certificate of Incorporation dated May 12, 1993. Subsequently, the Company was converted into a Public Limited Company pursuant to special resolution passed by members of the Company in Extra Ordinary General Meeting of the Company held on 19th February, 2018 and the name of the Company was changed to "Ushanti Colour Chem Limited" vide Fresh Certificate of Incorporation consequent upon conversion of company to Public Limited dated 7th March, 2018. The company is engaged in the business of dealing with Manufacturing of Dyestuff (Manufacturing of Cold Dyes, Hot Dyes etc).

(B) Basis of Preparation :

The Restated Summary Statements of Assets and Liabilities of the Company as at 31st December, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013 and the related Restated Summary Statements of Profits and Losses and Cash Flows Statement for the period / years ended 31st December, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013, have been compiled by management from the financial statements of the company for the period ended on 31st December, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014, March 31, 2013.

"The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, 1956 (up to March 31, 2014), and notified sections, schedules and rules of the Companies Act 2013 (with effect from April 01, 2014), including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 ("the Act") read with Rule 7 of Companies (Accounts) Rules, 2014).

The presentation of financial statements requires estimates and assumption to be made that affect the reported amount of assets & Liabilities on the date of financial statements and the reported amount of revenue and expenses during the reporting period. Difference between the actual result and estimates are recognized in the period in which results are known/materialized."

(C) Significant Accounting Policies :**(a) Use of Estimates :**

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenue and expenses during the reported period. Although these estimates are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the Carrying amounts of Assets or Liabilities in future periods.

(b) Fixed Assets :

Fixed assets are stated at cost of acquisition, including any attributable cost for bringing the asset to its working condition for its intended use, less accumulated depreciation. CENVAT credit availed but not adjusted against excise duty payment is treated as CENVAT credit receivable and shown under 'Loans and Advances'. Fixed assets on which CENVAT credit is not availed is shown at full value.

(c) Depreciation:

"Up to March 31st, 2014 depreciation on fixed assets is provided on WDV at the rate and manner prescribed in schedule XIV of the Companies Act, 1956 over their useful life. w.e.f April 1st, 2014 depreciation is provided based on useful life of asset as prescribed in schedule II of Companies Act 2013 except non charging of 100% depreciation on assets costing below Rs. 5000/-. The carrying amount as on April 1st, 2015 is depreciated over the balance useful life of asset."

Depreciation on additions to the assets and the assets sold or disposed off, during the year is provided on prorata basis, at their respective useful life or rate of depreciation as prescribed with reference to the date of acquisition / installation or date of sale / disposal.

(d) Revenue Recognition:

Revenue is recognized when it is earned and no significant uncertainty exists as to its realization or collection. Revenue from sale of goods is recognized on delivery of the products, when all significant contractual obligations have been satisfied, the property in the goods is transferred for price, significant risk and rewards of ownership are transferred to the customers and no effective ownership is retained. Sales comprises sale of goods and services, net of trade discounts and include exchange differences arising on sales transactions.

(e) Inventory Valuation:

Inventories are valued at lower of cost or NRV Whichever is lower.

The company has not included Excise duty payable on closing stock of finished Goods, in Value of Finished Goods as Disclosed in Financial statement with contravention to the Guidelines as mentioned in AS-2 " Valuation of Inventory". However, Such non-inclusion will not Affect Profit/Loss for the year.

(D) Foreign Currency Transactions :

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Monetary foreign currency assets and liabilities are translated into Rupees at the exchange rate prevailing at the Balance Sheet Date. All exchange differences are dealt with in Profit and Loss Account.

(E) Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of Investments.

On disposal of investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

(F) Employee Benefits:

Retirement benefit in the form of provident fund is a defined contribution scheme. The contribution to the provident fund is charged to the statement of profit and loss for the year when an employee renders the related services. The company has no obligations, other than the contribution payable to the provident fund.

(G) Taxation :

Tax expenses comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the Tax Authorities in accordance with the Income Tax Act'1961 enacted or substantively enacted at the reporting date.

Deferred Tax Assets or Deferred Tax Liability is recognized on timing difference being the difference between taxable income and accounting income. Deferred Tax Assets or Differed Tax Liability is measured using the tax rates and tax laws that have been enacted or substantively enacted at the Balance Sheet date. Deferred Tax Assets arising from timing differences are recognized to the extent there is a reasonable certainty that the assets can be realized in future.

(H) Borrowing Cost :

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

(I) Segment Reporting :

The company is engaged in the business of dealing with Manufacturing of Dyestuff(Manufacturing of Cold Dyes,Hot Gyes etc). Considering the nature of the Business and Financial Reporting of the Company, the company is operating in Two Geographical Segments, i.e. Domestic and Export Market. The company has not maintained separate data for the purpose of the Segmental Reporting and hence in absence of the data from the we are unable to report on the same.

(J) Provisions and Contingent Liabilities :

A provision is recognized when the company has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are not recognized but are disclosed in the notes. Contingent Assets are neither recognized nor disclosed in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our Restated Financial Statements which have been included in this Draft Prospectus. The following discussion and analysis of our financial condition and results of operations is based on our Restated Financial Statements for the years ended March 31, 2017, 2016, 2015, and period ended December 31, 2017 including the related notes and reports, included in this Draft Prospectus prepared in accordance with requirements of the Companies Act and restated in accordance with the SEBI Regulations, which differ in certain material respects from IFRS, U.S. GAAP and GAAP in other countries. Our Financial Statements, as restated have been derived from our audited financial statements for the respective years and period ended December 31, 2017. Accordingly, the degree to which our Restated Financial Statements will provide meaningful information to a prospective investor in countries other than India is entirely dependent on the reader's level of familiarity with Indian GAAP, Companies Act, SEBI Regulations and other relevant accounting practices in India.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under "Risk Factors" and "Forward Looking Statements" beginning on pages 19 and 18, respectively, and elsewhere in this Draft Prospectus.

Our Financial Year ends on March 31 of each year. Accordingly, all references to a particular Financial Year are to the 12 months ended March 31 of that year.

FINANCIAL YEAR 2016-17 COMPARED WITH FINANCIAL YEAR 2015-16

Total Revenue

Our total revenue increased by 17.95% to Rs. 2,962.01 lakhs for the financial year 2016-17 from Rs. 2,511.31 lakhs for the financial year 2015-16 due to the factors described below:

Revenue from operations: Our net revenue from operations increased by 18.23% to Rs. 2,947.86 lakhs for the financial year 2016-17 from Rs. 2,493.25 lakhs for the financial year 2015-16. The increase was mainly due to increase in our gross revenue from sale of manufactured products by 17.95% to Rs. 3,017.52 lakhs in the financial year 2016-17 from Rs. 2,558.24 lakhs for the financial year 2015-16. However, the increase was slightly offset by decrease in sale of products traded by Rs. 9.54 lakhs in the financial year 2016-17. The increase in sale of manufactured products was because of more demand due to chinese imports, better product mix and competitive pricing. Our revenue from export incentives also increased significantly to Rs. 85.41 lakhs for the financial year 2016-17 from Rs. 41.56 lakhs for the financial year 2015-16.

Other income: Our other income decreased by 21.64% to Rs. 14.15 lakhs for the financial year 2016-17 from Rs. 18.06 lakhs for the financial year 2015-16 mainly due to decrease in income from foreign exchange rate difference to Nil for financial year 2016-17 from Rs. 4.46 lakhs for financial year 2015-16, decrease in job work to Nil for the financial year 2016-17 which was Rs. 4.34 lakhs for financial year 2015-16 and decrease in sundry balances write off income which was Nil for the financial year as against Rs.1.36 lakhs for the financial year 2015-16. However, the decrease was partially offset by increase in interest income on margin money deposit by Rs. 3.85 lakhs, increase in income from scrap sale by Rs. 2.06 lakhs and increase in income from sale of investments by Rs. 0.45 lakhs in the financial year 2016-17. Increase in interest income on margin money deposit was primarily due to more bank guarantees required for documentation related to export, GST and GPCB.

Total Expenses

Our total expenses increased by 11.83% to Rs. 2,755.06 lakhs for the financial year 2016-17 from Rs. 2,463.57 lakhs for the financial year 2015-16, due to the factors described below:

Cost of material consumed: Cost of material consumed for the year ended March 31, 2017 was Rs. 1,416.40 lakhs which increased by 26.06% as compared to Rs. 1,123.63 lakhs in financial year 2015-16. Our Cost of material constituted 47.82% of our total revenue for the year ended March 31, 2017. Increase in cost of material consumed was primarily due to sudden shortage of Vinyl Sulphone, Phthalic Anhydride in the market.

Purchase of stock in trade: Our purchase of stock in trade has increased by 13.98% to Rs. 45.46 lakhs for the financial year 2016-17 from Rs. 39.89 lakhs for the financial year 2015-16 which was due to increase in the price of the raw materials of the products traded.

Employee benefits expenses: Our employee benefit expenses increased by 4.92% to Rs. 346.73 lakhs for the financial year 2016-17 from Rs. 330.48 lakhs for the financial year 2015-16. The increase was mainly due to increase in contribution to PF and Gratuity fund by Rs. 18.80 lakhs, However, this increase was offset by decrease in Salary and Wages by Rs 7.16 lakhs. Decrease in salary and wages was due to better productivity while the increase in employee benefit expenses was due to higher provisions for gratuity. Our total number of employees decreased to 70 in the financial year 2016-17 from 75 in financial year 2015-16.

Finance costs: Our finance costs decreased by 13.74 % to Rs. 89.65 lakhs for the financial year 2016-17 from Rs. 103.94 lakhs for the financial year 2015-16. Decrease in our finance cost was primarily due to decrease in our interest expense by Rs. 18.40 lakhs. However, this decrease was offset by increase in other borrowing cost by Rs. 4.11 Lakhs. The decrease in our interest cost was primarily due to repayment of our borrowings during the financial year 2016-17. Our total outstanding borrowings decreased to Rs. 778.86 lakhs as on March 31, 2017 from Rs. 1099.26 lakhs as on March 31, 2016.

Depreciation and amortization expense: Our depreciation and amortization expense decreased by 6.12% to Rs. 84.00 lakhs for the financial year 2016-17 from Rs. 89.48 lakhs for the financial year 2015-16. Depreciation on tangible assets in the financial year 2016-17 decreased by Rs. 6.95 lakhs while amortization expense increased by Rs. 1.47 lakhs in the financial year 2016-17.

Other expenses: Our other expenses increased by 0.43% to Rs. 769.39 lakhs for the financial year 2016-17 from Rs. 766.09 lakhs for the financial year 2015-16. The increase was mainly due to increase in labour & Processing charges by Rs. 14.46 lakhs, foreign exchange loss by Rs. 7.62 lakhs, commission and brokerage expenses by Rs. 7.10 lakhs, shipping charges by Rs. 5.83 lakhs, repairs & maintenance by Rs. 5.76 lakhs, write off of sundry balances by Rs. 2.78 lakhs, rent expenses by Rs. 2.40 lakhs, travel & conveyance by Rs. 2.01 lakhs and packing material charges by Rs. 1.81 lakhs among others. However, the increase was partially offset by decrease in power, fuel & electricity expenses by Rs. 23.33 lakhs, legal & professional charges by Rs. 15.04 lakhs, rates & taxes by Rs. 7.94 lakhs, among others in the financial year 2016-17.

Profit before tax: Our profit before tax increased by 333.54 % to Rs. 206.95 lakhs for the financial year 2016-17 from Rs. 47.74 lakhs for the financial year 2015-16. The increase was mainly due to higher efficiency of production, better product mix, better technology of use and disposal of effluents.

Tax expenses: Our tax expenses increased by 268.12% to Rs. 79.22 lakhs for the financial year 2016-17 from Rs. 21.52 lakhs for the financial year 2015-16 mainly due to increase in our current tax expense by Rs. 52.22 lakhs and decrease in deferred tax benefits by Rs. 5.48 lakhs in the financial year 2016-17.

Profit after tax: Due to reasons mentioned above, our profit after tax increased by 387.25% to Rs. 127.73 lakhs for the financial year 2016-17 from Rs. 26.22 lakhs for the financial year 2015-16.

FINANCIAL YEAR 2015-16 COMPARED WITH FINANCIAL YEAR 2014-15

Total Revenue

Our total revenue decreased by 15.47 % to Rs. 2,511.34 lakhs for the financial year 2015-16 from Rs. 2,970.97 lakhs for the financial year 2014-15 due to the factors described below:

Revenue from operations: Our revenue from operations decreased by 15.23% to Rs. 2,493.25 lakhs for the financial year 2015-16 from Rs. 2,941.33 lakhs for the financial year 2014-15 as there was a decrease in both gross manufacturing and gross trading revenue by Rs. 331.01 lakhs and 119.35 lakhs, respectively in the financial year 2015-16. However there was a slight increase in export incentives by 2.09 lakhs in the financial year 2015-16. The gross domestic sales (both from manufacturing and trading) increased by 11.37% or by Rs. 103.76 lakhs to Rs. 1,082.24 lakhs for the financial year 2015-16 from Rs. 978.49 lakhs for the financial year 2014-15 but the gross export sales (both from manufacturing and trading) decreased drastically by 26.42% or by Rs. 554.12 lakhs to Rs. 1,543.40 lakhs for the financial year 2015-16 from Rs. 2,097.52 lakhs for the financial year 2014-15. Decrease in export sale was primarily due to adverse conditions in the export market in the year 2015-16.

Other income: Our other income decreased by 39.08 % to Rs. 18.06 lakhs for the financial year 2015-16 from Rs. 29.64 lakhs for the financial year 2014-15. The decrease was mainly due to decrease in Foreign exchange gain by Rs 16.03 lakhs and decrease in dividend income of Rs 0.40 lakhs. However, the decrease was partially offset by receipt of one time job work income of Rs. 4.34 lakhs and increase in interest and other income in the financial year 2015-16. Decrease in Foreign exchange gain was due to decrease in export sales.

Total Expenses

Our total expenses decreased by 14.88 % to Rs. 2,637.53 lakhs for the financial year 2015-16 from Rs. 3,098.65 lakhs for the financial year 2014-15, due to the factors described below:

Cost of material consumed: Cost of material consumed for the year ended March 31, 2016 was Rs. 1, 123.63 lakhs as compared to Rs. 1321.07 lakhs for the financial year 2014-15. Our cost of material consumed decreased by 14.95% in the financial year 2014-15. Decrease in cost of raw material consumed was in line with decrease in our business operations in the financial year 2015-16.

Purchase of stock in trade: Our purchase of stock in trade has decreased by 69.51% to Rs. 39.89 lakhs for the financial year 2015-16 from Rs. 130.84 lakhs for the financial year 2014-15 which was in line with decrease in our revenue from sale from trading products.

Employee benefits expense: Our employee benefits expense decreased by 6.30% to Rs. 330.48 lakhs for the financial year 2015-16 from Rs. 352.68 lakhs for the financial year 2014-15. The decrease was mainly due to decrease in contribution to provident and other funds by Rs. 32.14 lakhs and decrease in salary & wages by Rs. 7.26 lakhs in the financial year 2015-16. However, the decrease was partially offset by an increase in directors' remuneration by Rs. 14.40 lakhs, bonus & incentives by Rs. 1.54 lakhs and staff welfare expenses by Rs. 1.25 lakhs in the financial year 2015-16. Decrease in salary and wages was due to automation of processes and achievement of better productivity as compared to the financial year 2014-15.

Finance costs: Our finance costs decreased by 13.31% to Rs. 103.94 lakhs for the financial year 2015-16 from Rs. 119.90 lakhs for the financial year 2014-15. The decrease was mainly due to decrease in our interest on unsecured and short term bank borrowings by Rs 42.05 lakhs and decrease in other borrowing costs by Rs. 1.66 lakhs in the financial year 2015-16. However, our interest on long term loans from banks increased by Rs. 27.75 lakhs in the financial year 2015-16.

Depreciation and amortization expense: Our depreciation and amortization expense decreased by 13.12% to Rs. 89.48 lakhs for the financial year 2015-16 from Rs. 102.99 lakhs for the financial year 2014-15. Depreciation in the financial year 2015-16 decreased by Rs. 13.99 lakhs while amortization expense increased by Rs. 0.48 lakhs in the financial year 2015-16.

Other expenses: Our other expenses increased by 9.27% to Rs. 766.09 lakhs for the financial year 2015-16 from Rs. 701.10 lakhs for the financial year 2014-15. The increase was mainly due to increase in pollution control expense by Rs. 60.78 lakhs, power, fuel & electricity expenses by Rs. 40.31 lakhs, rates & taxes by Rs. 6.61 lakhs, telephone expenses by Rs. 1.40 lakhs and insurance expenses by Rs. 1.39 lakhs, among others in the financial year 2015-16. However, the increase was partially offset by decrease in repairs & maintenance expenses by Rs. 19.02 lakhs, shipping expenses by Rs. 9.97 lakhs, labour & processing charges by Rs. 5.01 lakhs, packing material consumed by Rs. 4.73 lakhs, loss on sale of fixed assets by Rs. 4.09 lakhs and freight expenses by Rs. 1.91 lakhs in the financial year 2015-16 among others. Increase in pollution control expense was due to better environmental management enabling reuse of certain effluents after procession and decrease in repairs & maintenance expenses was due to better preventive maintenance.

Profit before tax: Our profit before tax increased by 2.72% to Rs. 47.74 lakhs for the financial year 2015-16 from Rs. 46.47 lakhs for the financial year 2014-15. The increase in profit before tax was mainly due to part commencement of our CPC Blue Plant.

Tax expenses: Our tax expenses increased by 18.81% to Rs. 21.52 lakhs for the financial year 2015-16 from Rs. 18.11 lakhs for the financial year 2014-15 mainly due to decrease in our current tax expense by Rs. 3.22 lakhs and the decrease in deferred tax benefits by Rs. 6.62 lakhs in the financial year 2015-16.

Profit after tax: Due to reasons mentioned above, our profit after tax decreased by 7.56% to Rs. 26.22 for the financial year 2015-16 from Rs. 28.36 lakhs for the financial year 2014-15.

SECTION VI – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except, as stated in this section and mentioned elsewhere in this Draft Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Subsidiaries, Group Companies or against any other company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters, Subsidiaries or Group Companies.

Except as disclosed below there are no i) litigation or legal actions, pending or taken, by any Ministry or department of the Government or a statutory authority against our Promoters during the last five years; (ii) direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action; (iii) pending proceedings initiated against our Company for economic offences; (iv) default and non-payment of statutory dues by our Company; (v) inquiries, inspections or investigations initiated or conducted under the Companies Act, 2013 or any previous companies law in the last five years against our Company and Subsidiaries including fines imposed or compounding of offences done in those five years; or (vi) material frauds committed against our Company in the last five years.

Except as stated below there are no Outstanding Material Dues (as defined below) to creditors; or (ii) outstanding dues to small scale undertakings and other creditors.

Our Board, in its meeting held on March 13, 2018 determined that outstanding dues to creditors in excess of Rs. 5.00 lakhs as per last audited financial statements shall be considered as material dues (“Material Dues”).

Pursuant to SEBI ICDR Regulations, all other pending litigations except criminal proceedings, statutory or regulatory actions and taxation matters involving our Company, Promoters, Directors and Group Companies, would be considered ‘material’ for the purposes of disclosure if the monetary amount of claim by or against the entity or person in any such pending matter exceeds Rs. 5.00 lakhs as determined by our Board, in its meeting held on March 13, 2018.

Accordingly, we have disclosed all outstanding litigations involving our Company, Promoters, Directors and Group Companies which are considered to be material. In case of pending civil litigation proceedings wherein the monetary amount involved is not quantifiable, such litigation has been considered ‘material’ only in the event that the outcome of such litigation has an adverse effect on the operations or performance of our Company.

Unless otherwise stated to the contrary, the information provided is as of the date of this Prospectus.

USHANTI COLOUR CHEM PRIVATE LIMITED V. VATVA INDUSTRIAL ASSOCIATION AND THREE OTHERS

Vatva Industrial Association, a registered trust (hereinafter referred to as the “**Respondent - III**”) issued a notice dated June 7, 2013 to Ushanti Colour Chem Limited (hereinafter referred to as the “**Petitioner**”). The Respondent - III levied a penalty amounting to Rs. 9,12,000/- on the Petitioner for damaging of storm water drainage, broken storm water drainage slab, breaking water supply pipe line, for breaking the main hole of domestic sureages and for keeping building material, stones, garbage’s outside on the road. The Petitioner filed a writ petition under Article 226 of the Constitution of India before the High Court of Gujarat at Ahmedabad (hereinafter referred to as the “**Gujarat High Court**”) against the Respondent - III. The Gujarat High Court passed an order dated January 13, 2016 dismissing the petition and discharging the notice. Further, the Gujarat High Court held that the Respondent - III is a registered trust and does not have any statutory powers like powers of corporation in case of certain defaults made by owner of land in industrial area, service of notices, authority for prosecution, as it is private association of the entrepreneur. Hence it is not a state under Article 12 of the Constitution of India. The Gujarat Industrial Development Corporation (hereinafter referred to as the “**Respondent – II**”) informed Respondent - III vide letter dated March 19, 2016 bearing reference No. GIDC/ENG/ABD/EE/479 and letter dated April 16, 2016 bearing reference No. GIDC/ENG/ABD/EE/623 that a reconnection of water supply in the Petitioner’s plot no. 88/6 and 88/7 be made with a condition of only one connection to be given for each plot. The Petitioner addressed the said matter to Hon’ble Prime minister vide letter dated January 27, 2017 & December 17, 2017. The Respondent - II vide letter dated January 16, 2018 bearing reference No. GIDC/ENG/PH/184 informed the Petitioner to resolve the matter amicably with Respondent - III by paying Rs 2,00,000/-. The Petitioner replied vide letter dated February 27, 2018 informing the Respondent - II that it has agreed upon settlement and has issued cheque dated February 27, 2018 amounting to **Rs. 2,00,000/-** in favour of Respondent - III for full and final settlement.

- Right to receive surplus on liquidation subject to any statutory and preferential claim being satisfied;
- Right of free transferability subject to applicable law, including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public limited company under the Companies Act, 2013 Act, the terms of the SEBI Listing Regulations and the Memorandum and Articles of Association of our Company.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and / or consolidation / splitting, please refer to the section titled “*Main Provisions of Articles of Association*” beginning on page number 280 of this Draft Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated May 30, 2018 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated May 22, 2018 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialised form, the tradable lot is 2,000 Equity Share. Allotment in this Issue will be only in electronic form in multiples of one Equity Share subject to a minimum Allotment of 2,000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Offer will be done in multiples of 2,000 Equity Share subject to a minimum allotment of 2,000 Equity Shares to the successful applicants.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72 of the Companies Act, 2013 the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the LM, reserve the right to not to proceed with the Issue after the Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed

ISSUE OPENING DATE

Issue Opening Date	[•]
Issue Closing Date	[•]
Finalisation of Basis of Allotment with the Designated Stock Exchange	[•]
Initiation of Refunds	[•]
Credit of Equity Shares to demat accounts of Allottees	[•]
Commencement of trading of the Equity Shares on the Stock Exchange	[•]

The above timetable is indicative and does not constitute any obligation on our Company, and the LM. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Bid/Issue Period. On the Bid/Issue Closing Date, the Bids and any revision to the same shall be accepted

between **10.00 a.m. and 5.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of timings and reported by the Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than 5.00 p.m. (IST) on the Bid/Issue Closing Date. All times mentioned in this Draft Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our Company nor the Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Draft Prospectus is Indian Standard Time.

Our Company in consultation with the LM, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bid/Issue Period will be extended for at least three additional working days after revision of Price Band subject to the Bid/ Issue Period not exceeding 10 working days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the changes on the websites of the Lead Manager and at the terminals of the Syndicate Member.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Draft Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Draft Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will allotted will not be less than 50 (Fifty)

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.1,00,000/- (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of NSE from SME Exchange on a later date subject to the following:

- *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to NSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

MARKET MAKING

The shares issued and transferred through this Issue are proposed to be listed on the NSE EMERGE (SME Exchange) with compulsory market making through the registered Market Maker of the SME Exchange for a minimum period of three years or such other time as may be prescribed by the Stock Exchange, from the date of listing on NSE EMERGE. For further details of the market making arrangement please refer to chapter titled “General Information” beginning on page 69 of this Draft Prospectus.

ARRANGEMENT FOR DISPOSAL OF ODD LOT

The trading of the equity shares will happen in the minimum contract size of 2,000 shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the market maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on NSE EMERGE.

AS PER THE EXTANT POLICY OF THE GOVERNMENT OF INDIA, OCBS CANNOT PARTICIPATE IN THIS ISSUE

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FIIs and foreign venture capital investors registered with SEBI to invest in shares of Indian Companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India / RBI while granting such approvals.

PART B

GENERAL INFORMATION DOCUMENT FOR INVESTING IN PUBLIC ISSUES

This General Information Document highlights the key rules, processes and procedures applicable to public issues in accordance with the provisions of the Companies Act, 2013 (to the extent notified and in effect), the Companies Act, 1956 (without reference to the provisions thereof that have ceased to have effect upon the notification of the Companies Act, 2013), the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957 and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. Bidders/Applicants should not construe the contents of this General Information Document as legal advice and should consult their own legal counsel and other advisors in relation to the legal matters concerning the Issue. For taking an investment decision, the Bidders/Applicants should rely on their own examination of the Issuer and the Issue, and should carefully read the Draft Prospectus /Prospectus before investing in the Issue.

SECTION 1: PURPOSE OF THE GENERAL INFORMATION DOCUMENT (GID)

This document is applicable to the public issues undertaken *inter-alia* through Fixed Price Issues. The purpose of the “General Information Document for Investing in Public Issues” is to provide general guidance to potential Applicants in IPOs, on the processes and procedures governing IPOs, undertaken in accordance with the provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (“SEBI ICDR Regulations, 2009”).

Applicants should note that investment in equity and equity related securities involves risk and Applicant should not invest any funds in the Issue unless they can afford to take the risk of losing their investment. The specific terms relating to securities and/or for subscribing to securities in an Issue and the relevant information about the Issuer undertaking the Issue; are set out in the Prospectus filed by the Issuer with the Registrar of Companies (“RoC”). Applicants should carefully read the entire Prospectus and the Application Form and the Abridged Prospectus of the Issuer in which they are proposing to invest through the Issue. In case of any difference in interpretation or conflict and/or overlap between the disclosure included in this document and the Prospectus, the disclosures in the Prospectus shall prevail. The Prospectus of the Issuer is available on the websites of stock exchanges, on the website(s) of the LM(s) to the Issue and on the website of Securities and Exchange Board of India (“SEBI”) at www.sebi.gov.in.

For the definitions of capitalized terms and abbreviations used herein Applicants may refer to the section “Glossary and Abbreviations”.

SECTION 2: BRIEF INTRODUCTION TO IPOs ON SME EXCHANGE

2.1 INITIAL PUBLIC OFFER (IPO)

An IPO means an offer of specified securities by an unlisted Issuer to the public for subscription and may include an Offer for Sale of specified securities to the public by any existing holder of such securities in an unlisted Issuer.

For undertaking an IPO, an Issuer is *inter-alia* required to comply with the eligibility requirements of in terms of either Regulation 26(1) or Regulation 26(2) of the SEBI ICDR Regulations, 2009, if applicable. For details of compliance with the eligibility requirements by the Issuer, Applicants may refer to the Prospectus.

The Issuer may also undertake IPO under chapter XB of the SEBI (ICDR) Regulations, wherein as per:

- Regulation 106M (1): An issuer whose post-issue face value Capital does not exceed ten crore rupees shall issue its specified securities in accordance with provisions of this Chapter.
- Regulation 106M (2): An issuer, whose post issue face value capital, is more than ten crore rupees and upto twenty five crore rupees, may also issue specified securities in accordance with provisions of this Chapter.

The present Issue is being made under Regulation 106M(1) of Chapter XB of SEBI (ICDR) Regulation.

2.2 OTHER ELIGIBILITY REQUIREMENTS

In addition to the eligibility requirements specified in paragraphs 2.1, an Issuer proposing to undertake an IPO is required to comply with various other requirements as specified in the SEBI ICDR Regulations, 2009, the Companies Act, 1956 (the “Companies Act”), The Securities Contracts (Regulation) Rules, 1957 (the “SCRR”), industry-specific regulations, if any, and other applicable laws for the time being in force. Following are the eligibility requirements for making an SME IPO under Regulation 106M (1) of Chapter XB of SEBI (ICDR) Regulation:

- (a) In accordance with regulation 106(P) of the SEBI (ICDR) Regulations, Issue has to be 100% underwritten and the LM has to underwrite at least 15% of the total issue size.
- (b) In accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, total number of proposed allottees in the Issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, than the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under section 73 of the Companies Act, 1956
- (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issued any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the Issue.
- (e) The Company has track record of distributable profits in terms of section 123 of Companies Act, 2013 for at least two years out of immediately preceding three financial years and each financial year has to be a period of at least 12 months. Extraordinary income will not be considered for the purpose of calculating distributable profits. The net worth of the Company is positive.
- (f) The Post-issue paid up capital of the Company shall not be more than Rs. 25 Crore
- (g) The Issuer shall mandatorily facilitate trading in demat securities.
- (h) The Issuer should not been referred to Board for Industrial and Financial Reconstruction.
- (i) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company.
- (j) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
- (k) The Company should have a website.
- (l) Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this Issue.

Thus Company is eligible for the Issue in accordance with regulation 106M (1) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital does not exceed Rs. 1,000 lakhs. Company also complies with the eligibility conditions laid by the EMERGE Platform of NSE for listing of our Equity Shares As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this Issue.

Thus Company is eligible for the Issue in accordance with regulation 106M(1) and other provisions of

chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital exceeds Rs. 1,000 lakhs but does not exceed Rs 2,500 lakhs. Company also complies with the eligibility conditions laid by the EMERGE Platform of NSE for listing of our Equity Shares.

2.3 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built Issue**”) or undertake a Fixed Price Issue (“**Fixed Price Issue**”). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the Draft Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 ISSUE PERIOD

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period.

Details of Issue Period are also available on the website of Stock Exchange(s).

2.5 MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of NSE from NSE EMERGE on a later date subject to the following:

- a. *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to NSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- b. *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal*

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:
Any person who:
 - makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
 - makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
 - otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,
Shall be liable for action under section 447 of the said Act.
- (d) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- (a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories' records.
- (b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim ("PAN Exempted Applicants"). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- (c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the

same.

- (d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- (e) Applications by Applicants whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and demographic details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- (a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the Application Form is liable to be rejected.
- (b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- (c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- (d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- (a) The Issuer may mention Price in the Draft Prospectus. However a prospectus registered with RoC contains one price.
- (b) Minimum And Maximum Application Size

i. For Retail Individual Applicants

The Application must be for a minimum of 2,000 Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for 2,000 Equity Shares.

ii. For Other Applicants (Non Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of 2,000 Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

- (a) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- (b) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:

- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
 - ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (c) The following applications may not be treated as multiple Applications:
- i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
 - ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
 - iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- (d) Applicants should ensure that their investor status is updated in the Depository records.

In case Applicant applying through Application Collecting Intermediary other than SCSB, after verification and upload, the Application Collecting Intermediary shall send to SCSB for blocking of fund.
- (g) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- (h) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- (i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- (j) Upon submission of a completed Application Form each ASBA Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- (k) The Application Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- (l) SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB; else their Applications are liable to be rejected.

4.1.8 Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful applications transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Application, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Application, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected/ partial/ non allotment ASBA Applications, if any, along with reasons for rejection and details of withdrawn or unsuccessful Applications, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful ASBA Application to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Application Form and for unsuccessful Applications, the Registrar to the Issue may give instructions to the SCSB to unblock the Application Amount in the relevant ASBA Account within 6 Working Days of the Issue Closing Date.

4.1.8.1 Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) RIIs, Employees and Retail Individual Shareholders are only eligible for discount. For Discounts offered in the Issue, applicants may refer to the Prospectus.
- (c) The Applicants entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Application Amount less Discount (if applicable).

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the EMERGE Platform of NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for)
- (b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- (c) For applications where the proportionate allotment works out to less than 2,000 equity shares the allotment will be made as follows:
 - i. Each successful Applicant shall be allotted 2,000 equity shares; and
 - ii. The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- (d) If the proportionate allotment to an Applicant works out to a number that is not a multiple of 2,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 2,000 equity shares subject to a minimum allotment of 2,000 equity shares.
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 2,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Prospectus.
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:
 - i. As per Regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual applicants other than retails individual investors and

- other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/- . Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director / Managing Director of NSE - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. Applicants **are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Applicants who have been Allotted Equity Shares in the Issue.

- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Applicants Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Applicant's depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

SECTION 8: INTEREST AND REFUNDS

8.1 COMPLETION OF FORMALITIES FOR LISTING & COMMENCEMENT OF TRADING

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2017 (“**FDI Policy 2017**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before

investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FPIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

ii. Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

iii. Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
